STATE OF MAINE

SENATE

124TH LEGISLATURE

SECOND REGULAR SESSION

COMMITTEE AMENDMENT "B" to S.P. 706, L.D. 1801, Bill, "An Act To Promote the Establishment of Innovative Schools"

Amend the bill by striking out all of section 1 and inserting the following:

Sec. 1. 20-A MRSA §1, sub-§26, ¶F, as enacted by PL 2007, c. 668, §1, is amended to read:

F. A municipal or quasi-municipal district responsible for operating public schools that has not reorganized as a regional school unit pursuant to chapter 103-A; and

Sec. 2. 20-A MRSA §1, sub-§26, ¶G, as enacted by PL 2007, c. 668, §1, is amended to read:

G. A municipal school unit, school administrative district, community school district or any other quasi-municipal district responsible for operating public schools that forms a part of an alternative organizational structure approved by the commissioner; and

Sec. 3. 20-A MRSA §1, sub-§26, ¶H is enacted to read:

H. A charter school under chapter 112.

Sec. 4. 20-A MRSA §202, sub-§16, as enacted by PL 1981, c. 693, §§5 and 8, is amended to read:

16. Other entities. Other entities authorized by the Legislature; and

Sec. 5. 20-A MRSA §202, sub-§17, as enacted by PL 1981, c. 693, §§5 and 8, is amended to read:

17. Other bureaus. Any other bureau the commissioner establishes; and

Sec. 6. 20-A MRSA §202, sub-§18 is enacted to read:

18. Charter schools. Charter schools.

Sec. 7. 20-A MRSA c. 112 is enacted to read:

COMMITTEE AMENDMENT

CHAPTER 112

CHARTER SCHOOLS

§2401. Definitions

As used in this chapter, unless the context otherwise indicates, the following terms have the following meanings.

1. Applicant. "Applicant" means a person or group that develops and submits an application for a public charter school to an authorizer.

2. Application. "Application" means a proposal from an applicant to an authorizer to enter into a charter contract whereby the proposed school obtains public charter school status.

3. At-risk pupil. "At-risk pupil" means a pupil who has an economic or academic disadvantage that requires special services and assistance to enable the student to succeed in educational programs. "At-risk pupil" includes, but is not limited to, pupils who are members of economically disadvantaged families, pupils who are identified as having special educational needs, pupils who are limited in English proficiency, pupils who are at risk of dropping out of high school and pupils who do not meet minimum standards of academic proficiency.

4. Authorizer. "Authorizer" means an entity empowered under this chapter to review applications, decide whether to approve or reject applications, enter into charter contracts with applicants, oversee and monitor public charter schools and decide whether to renew, not renew or revoke charter contracts.

5. Charter contract. "Charter contract" means a performance-based contract for a fixed term between a public charter school and an authorizer that describes performance expectations, defines operational responsibilities and outlines the autonomy and accountability for each party to the contract.

6. Conversion public charter school. "Conversion public charter school" means a public charter school that existed as a noncharter public school before becoming a public charter school.

7. Governing board. "Governing board" means the independent board of a public charter school that is party to the charter contract with the authorizer and whose members have been elected or selected pursuant to the school's application.

8. Local school board. "Local school board" means a school board exercising management and control of a local school district pursuant to the Constitution of Maine and the laws of the State.

9. Local school district. "Local school district" means a system of public schools established and maintained by a local school board within its limits pursuant to the Constitution of Maine and the laws of the State.

10. Noncharter public school. "Noncharter public school" means a public school that is under the direct management, governance and control of a local school board.

1 **11. Nonprofit education service provider.** "Nonprofit education service provider"
2 means an education management organization, charter management organization, school
3 design provider or any other partner entity with whom a public charter school intends to
4 contract for educational design, implementation or comprehensive management.

5 **12. Parent.** "Parent" means a parent, guardian or other person or entity having legal
6 custody of a child.

7 **13. Public charter school.** "Public charter school" means a public school that:

8 A. Has autonomy over key decisions, including, but not limited to, decisions
9 concerning finance; personnel, scheduling, curriculum and instruction;

10 B. Is governed by an independent board;

11 C. Is established and operated under the terms of a charter contract between the
12 governing board and its authorizer in accordance with this chapter;

13 D. Is a school to which parents choose to send their children;

14 E. Provides a program of education that includes one or more of the following:
15 preschool, prekindergarten, any grade or grades from kindergarten to grade 12 and
16 career and technical education programs;

17 F. Operates in pursuit of a specific set of educational objectives as defined in its
18 charter contract; and

19 G. Operates under the oversight of the authorizer from which its charter contract is
20 granted and in accordance with its charter contract.

21 **14. Pupil.** "Pupil" means any child who is eligible for attendance in public schools
22 in the State.

23 **15. Start-up public charter school.** "Start-up public charter school" means a public
24 charter school that did not exist as a noncharter public school prior to becoming a public
25 charter school.

26 **16. Virtual public charter school.** "Virtual public charter school" means a public
27 charter school that offers educational services predominantly through an online program.

28 **§2402. Charter schools authorized**

29 Charter schools may be established as public schools pursuant to this chapter to
30 improve pupil learning by creating more high-quality schools with high standards for
31 pupil performance; to close achievement gaps between high-performing and low-
32 performing groups of public school students; to increase high-quality educational
33 opportunities within the public education system; to provide alternative learning
34 environments for students who are not thriving in traditional school settings; to create
35 new professional opportunities for teachers and other school personnel; to encourage the
36 use of different, high-quality models of teaching and other aspects of schooling; and to
37 provide students, parents, community members and local entities with expanded
38 opportunities for involvement in the public education system.

1 **§2403. Pilot program**

2 **1. Ten-year pilot phase.** The charter school program set out in this chapter must
3 begin with a 10-year pilot phase, beginning on the effective date of this section. During
4 the pilot phase, the commissioner shall register the charters approved by all authorizers in
5 chronological order by date of approval under this chapter.

6 **2. Limited number of public charter schools.** During the pilot phase, only 20
7 public charter schools may be approved by authorizers other than local school boards.
8 Once the cap is reached, the commissioner may not accept further registrations from
9 authorizers other than local school boards and only local school boards may approve
10 charters until the end of the pilot phase.

11 **3. Repeal.** This section is repealed June 1, 2020.

12 **§2404. Role of the department; commissioner**

13 **1. Information and technical assistance.** The department shall support the charter
14 school pilot program established in section 2403 and disseminate information to the
15 public directly and through authorizers on how to form and operate a public charter
16 school and on how to enroll in public charter schools once they are created. The
17 department may provide assistance and guidance to authorizers in developing effective
18 authorization and oversight procedures.

19 **2. Registration of authorizers.** The commissioner shall register entities eligible to
20 serve as authorizers under section 2409, subsection 1. The commissioner may revoke a
21 registration in accordance with section 2409, subsection 9.

22 **3. Applications for federal funds.** The commissioner may apply for assistance from
23 the federal charter school grant program on behalf of potential and actual public charter
24 schools in the State. If the commissioner does not apply for assistance from the federal
25 charter school grant program within one year of the effective date of this chapter, a public
26 charter school may apply on its own behalf.

27 **4. Use of federal funds.** If the commissioner receives a grant from the federal
28 charter school grant program on behalf of potential and actual charter schools, 95% of the
29 grant must be used for planning and start-up grants to public charter school organizers
30 who have met the applicable federal guidelines. The commissioner may use up to 5% of
31 the grant for such activities as:

32 **A. Establishing a charter school office in the department;**

33 **B. Providing information and technical assistance to potential and actual public**
34 **charter school organizers and authorizers; and**

35 **C. Allocating funds to support the work of potential and actual authorizers.**

36 **5. Reports.** The commissioner shall provide reports to the Governor and the
37 Legislature on the activity in the State's charter school program, drawing from the annual
38 reports submitted by every authorizer pursuant to section 2409, subsection 4, as well as
39 any additional relevant data compiled by the commissioner, for the school years ending in
40 the preceding calendar year. A report must include an assessment of the charter school
41 program's successes, challenges and areas for improvement in meeting the purposes of

1 this chapter and any suggested changes in state law or policy necessary to strengthen the
2 program. The commissioner shall provide reports as follows:

3 A. By March 1st of the first year of the charter school program;

4 B. By March 1st of the 2nd year of the charter school program;

5 C. By March 1st of the 4th year of the charter school program; and

6 D. By March 1st of the 8th year of the charter school program.

7 **§2405. Charter school eligibility; enrollment**

8 1. Eligibility. Any student residing in the State is eligible to apply to a public
9 charter school.

10 2. Enrollment. A public charter school shall enroll students in accordance with this
11 subsection.

12 A. A public charter school shall enroll all students who wish to attend the school,
13 unless the number of students exceeds the enrollment capacity of a program, class,
14 grade level or building. The enrollment capacity of a public charter school must be
15 determined annually by the governing board of the public charter school in
16 conjunction with the authorizer.

17 B. A public charter school may not enroll more than 5% of a school administrative
18 unit's public school students per grade level, unless a local school board acting as the
19 authorizer approves a different percentage for students residing in the school
20 administrative unit. This paragraph does not apply to conversions of existing public
21 schools and public school programs.

22 C. If capacity is insufficient to enroll all students who wish to attend the school, the
23 public charter school shall select students through a random selection process. A new
24 process must be conducted each year to fill vacancies that become available, and any
25 list maintained to fill potential vacancies may not be carried over to the succeeding
26 year.

27 D. A public charter school may limit enrollment to pupils within a given age group
28 or grade level and may be organized around a special emphasis, theme or concept as
29 stated in the school's application for a charter contract pursuant to section 2411.

30 E. Any noncharter public school converting partially or entirely to a public charter
31 school shall adopt and maintain a policy that gives enrollment preference to pupils
32 who reside within the former attendance area of that public school.

33 F. A public charter school shall give enrollment preference to pupils enrolled in the
34 public charter school the previous school year and to siblings of pupils already
35 enrolled in the public charter school.

36 G. A public charter school may give enrollment preference to children of a public
37 charter school's founders, governing board members and full-time employees, as long
38 as they constitute no more than 10% of the school's total student population.

39 H. A public charter school may enroll students from outside the State if space is
40 available.

1 I. An authorizer may not restrict the number of pupils a public charter school may
2 enroll, except that a public charter school and its authorizer may negotiate and agree
3 to limitations on the number of students the public charter school may enroll as
4 necessary to:

5 (1) Facilitate the academic success of students enrolled in the public charter
6 school;

7 (2) Facilitate the public charter school's ability to achieve the other objectives
8 specified in the charter contract; or

9 (3) Ensure that the public charter school's student enrollment does not exceed the
10 capacity of the public charter school facility or site.

11 **3. Discrimination prohibited.** A public charter school may not discriminate on the
12 basis of race, ethnicity, national origin, religion, gender, income level, disabling
13 condition, proficiency in the English language or academic or athletic ability, except that
14 nothing in this subsection may be construed to limit the formation of a public charter
15 school that is dedicated to focusing educational services to at-risk pupils, students with
16 disabilities and students who pose such severe disciplinary problems that they warrant a
17 specific educational program.

18 **§2406. Transfer of credits**

19 If a student who was previously enrolled in a public charter school enrolls in another
20 public school in this State, the school to which the student transferred must accept credits
21 earned by the student in courses or instructional programs at the public charter school in a
22 uniform and consistent manner and according to the same criteria that are used to accept
23 academic credits from other public schools.

24 **§2407. Prohibition**

25 A local school district may not require a student enrolled in the local school district to
26 attend a public charter school.

27 **§2408. Public information**

28 A local school district shall provide or publicize to parents and the general public
29 information about public charter schools authorized by the district as an enrollment
30 option within the district to the same extent and through the same means that the district
31 provides and publicizes information about noncharter public schools in the district.

32 **§2409. Authorizers**

33 **1. Eligibility; registration.** The following are eligible to serve as authorizers upon
34 submitting a letter of intent and receiving a registration number from the commissioner:

35 A. A local school board within the boundaries of a school administrative unit;

36 B. A collaborative among local school boards and other eligible authorizing entities
37 that form to set up a public charter school for their region; or

38 C. A college or university located in the State that offers a baccalaureate degree in
39 education.

2. Powers and duties. An authorizer may:

- A. Solicit, invite and evaluate applications from organizers of proposed public charter schools;
- B. Approve applications that meet identified educational needs;
- C. Deny applications that do not meet identified educational needs;
- D. Create a framework to guide the development of charter contracts;
- E. Negotiate and execute sound charter contracts with each approved public charter school;
- F. Monitor the performance and compliance of public charter schools; and
- G. Determine whether each charter contract merits renewal or revocation.

Regulation by authorizers is limited to the duties set forth in this subsection.

3. Principles and professional standards. An authorizer shall develop and maintain policies and practices consistent with nationally recognized principles and professional standards for authorizing public charter schools including standards relating to:

- A. Organizational capacity and infrastructure;
- B. Soliciting and evaluating applications;
- C. Performance contracting;
- D. Ongoing public charter school oversight and evaluation; and
- E. Charter renewal decision making.

4. Reporting and evaluation. An authorizer shall submit to the commissioner an annual report summarizing:

- A. The authorizer's strategic vision for chartering and progress toward achieving that vision;
- B. The performance of all operating public charter schools overseen by the authorizer, according to the performance measures and expectations specified in its charter contracts;
- C. The status of the authorizer's public charter school portfolio, identifying all public charter schools within that portfolio as:
 - (1) Approved, but not yet open;
 - (2) Operating;
 - (3) Renewed;
 - (4) Transferred;
 - (5) Terminated;
 - (6) Closed; or

1 (7) Never opened; and

2 D. The oversight and services provided by the authorizer to the public charter
3 schools under its purview.

4 **5. Funding.** To cover costs for overseeing public charter schools in accordance with
5 this chapter, an authorizer may:

6 A. Expend its own resources, seek grant funds and establish partnerships to support
7 its charter school office and activities; and

8 B. Charge up to 3% of annual per-pupil allocations received by each public charter
9 school it authorizes. These funds must be used to cover the costs for an authorizer to
10 provide oversight services to its public charter schools.

11 **6. Conflicts of interest.** An employee, trustee, agent or representative of an
12 authorizer may not simultaneously serve as an employee, trustee, agent, representative,
13 vendor or contractor of a public charter school of that authorizer.

14 **7. Exclusivity of authorizing functions and rights.** A governmental entity or other
15 entity, other than an entity expressly granted chartering authority as set forth in this
16 chapter, may not assume any authorizing function or duty in any form, unless expressly
17 allowed by law.

18 **8. Services purchased from authorizer.** With the exception of charges for
19 oversight services as provided by subsection 5, paragraph B, a public charter school may
20 not be required to purchase services from its authorizer as a condition of charter approval
21 or of executing a charter contract, nor may any such condition be implied.

22 A. A public charter school may, at its discretion, choose to purchase services from its
23 authorizer. In such event, the public charter school and authorizer shall execute an
24 annual service contract, separate from the charter contract, stating the parties' mutual
25 agreement concerning any services to be provided by the authorizer and any service
26 fees to be charged to the public charter school. An authorizer may not charge more
27 than market rates for services provided to a public charter school.

28 B. Within 90 days after the end of each fiscal year, an authorizer shall provide to
29 each public charter school it oversees an itemized accounting of all the actual costs of
30 services purchased by the public charter school from the authorizer.

31 C. Any difference between the amount initially charged to the public charter school
32 and the actual cost must be reconciled and paid to the owed party. If either party
33 disputes the itemized accounting, any charges included in such accounting or charges
34 to either party, the disputing party is entitled to request a 3rd-party review at its own
35 expense.

36 **9. Oversight of public charter school authorizers.** This subsection applies to
37 oversight of public charter school authorizers.

38 A. The department shall oversee the performance and effectiveness of authorizers
39 registered under this chapter.

40 B. In accordance with subsection 4, an authorizer shall submit to the department an
41 annual report. The department shall, by October 1st of each year, communicate to an

1 authorizer the requirements for the format, content and submission of the annual
2 report.

3 C. Persistently unsatisfactory performance of an authorizer's portfolio of public
4 charter schools, a pattern of well-founded complaints about the authorizer or its
5 public charter schools or other objective circumstances may trigger a special review
6 by the commissioner. In reviewing or evaluating the performance of an authorizer,
7 the commissioner shall apply nationally recognized principles and standards for high-
8 quality charter authorizing. If at any time the commissioner finds that an authorizer
9 is not in compliance with an existing charter contract or the requirements of this
10 chapter, the commissioner shall notify the authorizer in writing of the identified
11 problems, and the authorizer must have reasonable opportunity to respond and
12 remedy the problems.

13 D. If a local school board acting as an authorizer under subsection 1 persists in
14 violating a material provision of a charter contract or fails to remedy other
15 authorizing problems after due notice from the commissioner, the commissioner shall
16 timely notify the local school board that it intends to terminate the local school
17 board's chartering authority unless the local school board demonstrates a timely and
18 satisfactory remedy for the violation or deficiencies.

19 E. If an authorizer persists, after due notice from the commissioner, in violating a
20 material provision of a charter contract or fails to remedy other identified problems,
21 the commissioner shall timely notify the authorizer that it intends to revoke the
22 authorizer's chartering authority unless the authorizer demonstrates a timely and
23 satisfactory remedy for the violation or deficiencies.

24 F. In the event of revocation of an authorizer's chartering authority, the
25 commissioner shall manage the timely and orderly transfer of each charter contract
26 held by the authorizer to another authorizer in the State with the mutual agreement of
27 each affected public charter school and proposed new authorizer. The new authorizer
28 shall assume the existing charter contract for the remainder of the charter term.

29 **§2410. Request for proposals**

30 **1. Issuance.** To invite, solicit, encourage and guide the development of high-quality
31 public charter school applications, an authorizer shall issue and broadly publicize a
32 request for proposals on May 1st or October 1st of each year, but an authorizer may not
33 approve an application for a public charter school to open in less than 6 months from the
34 date of application. The content and dissemination of the request for proposals must be
35 consistent with the purposes and requirements of this chapter. In the first year of the pilot
36 program under section 2403 a charter school may not commence academic instruction
37 before the beginning of the 2011-2012 school year.

38 **2. Content.** An authorizer's requests for proposals must contain information
39 outlined in this subsection.

40 A. A request for proposals must present the authorizer's strategic vision for and
41 interests in chartering, including a clear statement of any preferences or priority the
42 authorizer wishes to grant to particular types of applications to meet community
43 needs. An authorizer's preferences or priorities may include but are not limited to

1 proposals that expand opportunities for children who are not realizing their full
2 potential, who may be disaffected or disengaged in their current education situations
3 and who may be at risk of failure academically, socially, economically or personally.

4 B. A request for proposals must include or otherwise direct applicants to the
5 performance framework that the authorizer has developed for charter school
6 oversight and evaluation in accordance with section 2413.

7 C. A request for proposals must include the criteria and standards that will guide the
8 authorizer's decision to approve or deny an application.

9 D. A request for proposals must state clear, appropriately detailed questions as well
10 as guidelines concerning the format and content essential for applicants to
11 demonstrate the capacities necessary to establish and operate a successful public
12 charter school.

13 E. A request for proposals must require applications to provide or describe
14 thoroughly, at a minimum, all of the following essential elements of the proposed
15 public charter school plan:

16 (1) The proposed public charter school's vision, including:

17 (a) An executive summary;

18 (b) The mission and vision of the proposed public charter school, including
19 identification of the targeted student population and the community the
20 school hopes to serve; and

21 (c) Evidence of need and community support for the proposed public charter
22 school;

23 (2) The proposed public charter school's governance plan, including:

24 (a) Background information on proposed board members and any assurances
25 or certifications required by the authorizer;

26 (b) Proposed governing bylaws;

27 (c) An organization chart that clearly presents the school's organizational
28 structure, including lines of authority and reporting between the governing
29 board, staff and any related bodies such as advisory bodies or parent and
30 teacher councils, and any external organizations that will play a role in
31 managing the school;

32 (d) A clear description of the roles and responsibilities for the governing
33 board, the school's leadership and management team and any other entities
34 shown on the organization chart;

35 (e) Identification of the proposed founding governing board members and, if
36 identified, the proposed school leader or leaders; and

37 (f) Background information on the school's leadership and management team,
38 if identified;

- (3) The proposed public charter school's plan of organization, including:
 - (a) The location or geographic area of the school;
 - (b) The grades to be served each year for the full term of the charter;
 - (c) Minimum, planned and maximum enrollment per grade per year for the term of the charter;
 - (d) The school's proposed calendar and sample daily schedule;
 - (e) Plans and timelines for student recruitment and enrollment, including lottery procedures;
 - (f) Explanations of any partnerships or contractual relationships central to the school's operations or mission;
 - (g) The school's proposals for providing transportation, food service and other significant operational or ancillary services;
 - (h) A facilities plan, including backup or contingency plans if appropriate;
 - (i) A detailed school start-up plan, identifying tasks, timelines and responsible individuals; and
 - (j) A closure protocol, outlining orderly plans and timelines for transitioning students and student records to new schools and for appropriately disposing of school funds, property and assets in the event of school closure;
- (4) The proposed public charter school's finances, including:
 - (a) A description of the school's financial plan and policies, including financial controls and audit requirements;
 - (b) Start-up and 3-year budgets with clearly stated assumptions;
 - (c) Start-up and first-year cash-flow projections with clearly stated assumptions;
 - (d) Evidence of anticipated fund-raising contributions, if claimed in the application; and
 - (e) A description of the insurance coverage the school proposes to obtain;
- (5) The proposed public charter school's student policy, including:
 - (a) The school's plans for identifying and successfully serving students with a wide range of learning needs and styles, including at-risk students, students with disabilities, English as a Second Language students and gifted students;
 - (b) The school's plans for compliance with applicable laws, rules and regulations; and
 - (c) The proposed school's student discipline plans and policies, including those for special education students;

1 (6) The proposed public charter school's academic program, including:

2 (a) A description of the academic program aligned with the statewide system
3 of learning results under section 6209;

4 (b) A description of the school's instructional design, including the type of
5 learning environment, such as classroom-based or independent study, class
6 size and structure, curriculum overview, teaching methods and research
7 basis;

8 (c) The proposed school's plan for using internal and external assessments to
9 measure and report student progress on the measures and metrics of the
10 performance framework developed by the authorizer in accordance with
11 section 2413; and

12 (d) A description of cocurricular or extracurricular programs and how they
13 will be funded and delivered; and

14 (7) The proposed public charter school's staff policy, including:

15 (a) A staffing chart for the school's first year and a staffing plan for the term
16 of the charter;

17 (b) Plans for recruiting and developing school leadership and staff;

18 (c) The school's leadership and teacher employment policies, including
19 performance evaluation plans; and

20 (d) Opportunities and expectations for parent involvement.

21 F. With respect to the conversion of an existing public school to public charter
22 school status, in addition to the other requirements of this subsection, the request for
23 proposals must require applicants to demonstrate support for the proposed conversion
24 public charter school by submitting:

25 (1) A petition signed by at least 60% of teachers in the existing public school;

26 (2) A petition signed by a majority of parents and guardians of students in the
27 existing public school; or

28 (3) Other evidence or information presented at a public hearing convened by the
29 authorizer in accordance with section 2411, subsection 4, paragraph B.

30 If the school to be converted is the only public school option for students in the
31 school administrative unit, the request for proposals must additionally require that the
32 conversion be approved by voters in that school administrative unit.

33 G. With respect to a proposed charter school that intends to contract with a nonprofit
34 education service provider for substantial educational or management services, in
35 addition to the other requirements of this subsection, the request for proposals must
36 require applicants to:

37 (1) Explain how and why the nonprofit education service provider was selected;

1 (2) Provide evidence of the nonprofit education service provider's success in
2 servicing student populations similar to the targeted population, including
3 demonstrated academic achievement as well as successful management of
4 nonacademic school functions if applicable;

5 (3) Provide information on the proposed duration of the service contract; roles
6 and responsibilities; scope of services and resources to be provided by the
7 nonprofit education service provider; performance evaluation measures and
8 timelines; compensation structure, including clear identification of all fees to be
9 paid to the nonprofit education service provider; methods of contract oversight
10 and enforcement; investment disclosure; and conditions for renewal and
11 termination of the contract;

12 (4) Provide a draft of the proposed service contract including all of the terms in
13 subparagraphs (1), (2) and (3);

14 (5) Explain the relationship between the governing board and the nonprofit
15 education service provider, specifying how the governing board will monitor and
16 evaluate the performance of the nonprofit education service provider, the internal
17 controls that will guide the relationship and how the governing board will ensure
18 fulfillment of performance expectations;

19 (6) Provide a statement of assurance that the governing board is legally and
20 operationally independent from the nonprofit education service provider; and

21 (7) Disclose and explain any existing or potential conflicts of interest between
22 the governing board and the nonprofit education service provider or any affiliated
23 business entities.

24 H. With respect to a public charter school proposal from a nonprofit applicant that
25 currently operates one or more schools in any other state or nation, in addition to the
26 other requirements of this subsection, the request for proposals must require
27 applicants to provide evidence of past performance and current capacity for growth.

28 **§2411. Charter applications**

29 **1. Application.** An applicant for approval as a public charter school must submit an
30 application as set out in this section. An applicant may submit an application only to an
31 authorizer that has issued a request for proposals in accordance with section 2410. An
32 applicant may submit a proposal for a particular public charter school to no more than
33 one authorizer at a time. The purposes of the application are to present the proposed
34 public charter school's academic and operational vision and plans, demonstrate the
35 applicant's capacities to execute the proposed vision and plans and provide the authorizer
36 a clear basis for assessing the applicant's plans and capacities.

37 **2. Conversion of existing public schools.** A public school or public school program
38 may apply to its local school board to become a conversion public charter school.

39 **3. Start-up schools.** An application for a start-up public charter school may be
40 submitted by a nonprofit, nonreligious organization.

1 4. Application review process. In reviewing and evaluating applications,
2 authorizers shall employ procedures, practices, criteria and standards consistent with
3 nationally recognized principles and standards for authorizing high-quality public charter
4 schools.

5 A. The application review process must include, at a minimum, substantive
6 participation by a team of reviewers who collectively possess appropriate academic
7 and operational expertise and experience with charter schools.

8 B. The application review process must include thorough evaluation of each
9 application, an in-person interview with the applicant and a public hearing.

10 C. In deciding whether to approve applications, authorizers shall:

11 (1) Grant charters only to applicants that have demonstrated competence in each
12 element of the authorizer's published approval criteria and are likely to open and
13 operate a successful public charter school;

14 (2) Base decisions on documented evidence collected through the application
15 review process; and

16 (3) Follow charter-granting policies and practices that are transparent, based on
17 merit and avoid conflicts of interest or any appearance of a conflict of interest.

18 5. Approval; denial. No later than 90 days after the filing of an application, an
19 authorizer shall decide to approve or deny the application. The authorizer shall make and
20 announce all charter approval or denial decisions in a meeting of the authorizer's
21 governing entity open to the public.

22 A. An approval decision may include, if appropriate, reasonable conditions that the
23 applicant must meet before a charter contract may be executed.

24 B. If the authorizer denies an application, the authorizer shall clearly state, for public
25 record, its reasons for denial. An applicant may subsequently reapply to that
26 authorizer or apply to any other authorizer in the State. An applicant may appeal a
27 denial to the commissioner, and the commissioner's decision is a final agency action
28 for purposes of Title 5, chapter 375, subchapter 7.

29 C. Within 10 days of taking action to approve or deny an application, the authorizer
30 shall report to the commissioner the action it has taken. The authorizer shall provide
31 a copy of the report to the applicant at the same time that the report is submitted to
32 the commissioner.

33 D. The commissioner shall register the charters approved by all authorizers in
34 chronological order by date of approval.

35 E. An approved application may not serve as a school's charter contract nor may it be
36 incorporated by reference into the charter contract.

37 F. A decision on an application must be conveyed in writing to the applicant. A
38 decision may grant approval or conditional approval, request resubmission or reject
39 the application and must include written reasons for the decisions.

1 6. Authorizer annual report. An authorizer shall annually publish and provide, as
2 part of its annual report to the department under section 2409, subsection 4, a
3 performance report for each public charter school it oversees, in accordance with the
4 performance framework set forth in the charter contract. The authorizer may require each
5 public charter school it oversees to submit an annual report to assist the authorizer in
6 gathering complete information about each school, consistent with the performance
7 framework.

8 §2412. Charter contracts

9 1. Charter contracts. When an application is approved, a charter contract must be
10 executed in accordance with this section.

11 A. Within 90 days of approval of an application, the authorizer and the governing
12 board shall execute a charter contract that sets forth:

13 (1) Performance provisions describing the academic and operational
14 performance expectations and measures by which the public charter school will
15 be judged; and

16 (2) Administrative provisions articulating the administrative relationship
17 between the authorizer and the public charter school, including each party's rights
18 and duties.

19 B. The performance provisions set forth in a charter contract under paragraph A must
20 include but need not be limited to applicable federal and state accountability
21 requirements.

22 C. The performance provisions set forth in a charter contract under paragraph A may
23 be refined or amended by mutual agreement of the parties to the charter contract after
24 the public charter school is operating and has collected baseline achievement data for
25 its enrolled students.

26 D. A charter contract must be signed by the president of the authorizer's governing
27 entity and the president of the governing board.

28 E. A public charter school may not commence operations without a charter contract
29 executed in accordance with this section and approved in a meeting open to the
30 public of the authorizer's governing entity.

31 2. Requirements prior to opening. An authorizer may establish reasonable
32 requirements or conditions prior to the opening of a public charter school to monitor the
33 start-up progress of a newly approved charter school, ensure that it is prepared to open
34 smoothly on the date agreed and ensure that the school meets all building, health, safety,
35 insurance and other legal requirements for school opening.

36 3. Virtual public charter schools. The charter contract of a virtual public charter
37 school must require the governing board to:

38 A. Provide each student enrolled in the school with online courses that meet or
39 exceed state standards and all instructional materials required for the student's
40 participation in the school;

1 B. Ensure that the persons who operate the school on a day-to-day basis comply with
2 and carry out all applicable requirements, statutes, regulations, rules and policies of
3 the school;

4 C. Ensure that a parent of each student verifies the number of hours of educational
5 activities completed by the student each school year; and

6 D. Adopt a plan by which it will provide:

7 (1) Frequent, ongoing monitoring to ensure and verify that each student is
8 participating in the school, including proctored assessments each semester in core
9 subjects graded or evaluated by the teacher, and at least biweekly parent-teacher
10 conferences in person or by telephone;

11 (2) Regular instructional opportunities in real time that are directly related to the
12 school's curricular objectives, including, but not limited to, meetings with
13 teachers and educational field trips and outings;

14 (3) Verification of ongoing student attendance in the school;

15 (4) Verification of ongoing student progress and performance in each course as
16 documented by ongoing assessments and examples of student course work; and

17 (5) Administration to all students in a proctored setting of all applicable
18 assessments as required by the State.

19 Nothing in this subsection prohibits a virtual public charter school from reimbursing
20 families of enrolled students for costs associated with their Internet connection for use in
21 the program.

22 Only students enrolled in a virtual public charter school as full-time students may be
23 reported in the school's average daily membership to the department for the purposes of
24 receiving local, state and federal funds.

25 **§2413. Charter school performance framework**

26 **1. Performance framework.** The performance provisions of a charter contract must
27 be based on a performance framework developed by the authorizer that sets forth the
28 academic and operational performance indicators that will guide the authorizer's
29 evaluations of each public charter school.

30 **2. Data elements.** The performance framework developed under subsection 1 must
31 include, at a minimum, indicators for:

32 A. Student academic proficiency;

33 B. Student academic growth;

34 C. Achievement gaps in both proficiency and growth between major student
35 subgroups;

36 D. Attendance;

37 E. Recurrent enrollment from year to year;

38 F. With respect to high school, postsecondary readiness;

- 1 G. Financial performance and sustainability;
- 2 H. Governing board performance and stewardship; and
- 3 I. Parent and community engagement.

4 **3. Annual performance targets.** Annual performance targets must be set by a
5 public charter school in conjunction with its authorizer and must be designed to help each
6 school meet applicable federal and state requirements and authorizer expectations.

7 **4. Data disaggregation.** The performance framework developed under subsection 1
8 must require the disaggregation of all student performance data by major student
9 subgroups, including gender, race, poverty status, special education status, English as a
10 Second Language status and gifted status.

11 **5. Reports for multiple campuses.** With respect to a public charter school that
12 contains multiple campuses operating under a single charter contract or overseen by a
13 single governing board, the performance framework developed under subsection 1 must
14 require the performance of each campus to be reported separately and must hold each
15 campus independently accountable for its performance.

16 **§2414. Oversight**

17 **1. Data collection; monitoring.** For each public charter school it oversees, the
18 authorizer is responsible for collecting, analyzing and reporting all data from state
19 assessments in accordance with the performance framework developed under section
20 2413, subsection 1. An authorizer shall monitor the performance and legal compliance of
21 the public charter schools it oversees, including collecting and analyzing all data to
22 support ongoing evaluation according to the charter contract.

23 **2. Notification of unsatisfactory performance or compliance.** In the event that a
24 public charter school's performance or legal compliance appears unsatisfactory, the
25 authorizer shall promptly notify the public charter school of the perceived problem and
26 provide reasonable opportunity for the school to remedy the problem.

27 **3. Sanctions.** An authorizer may exercise, as appropriate, sanctions short of
28 revocation of the charter contract in response to deficiencies in public charter school
29 performance or legal compliance. Such sanctions may include, if warranted, opportunities
30 for a school to develop and execute a plan for improvement within a specified time frame.

31 **§2415. Charter term and renewal**

32 **1. Initial charter term.** An initial charter must be granted for a term of 5 operating
33 years. The charter term commences on the public charter school's first day of operation.
34 An approved public charter school may delay its opening for one school year in order to
35 plan and prepare for the school's opening. If the school requires an opening delay of
36 more than one school year, the school must request an extension from its authorizer. The
37 authorizer may grant or deny the extension depending on the particular school's
38 circumstances.

39 **2. Charter renewal term.** A charter may be renewed for successive terms of 5
40 years, although an authorizer may grant renewal with specific terms or conditions for
41 necessary improvements to a public charter school.

1 **3. Authorizer renewal responsibilities.** No later than June 30th of a public charter
2 school's 4th year of operation under a term of a charter contract, the authorizer shall issue
3 a charter school performance report and charter renewal application guidance to the
4 school.

5 **A.** The performance report required in this subsection must summarize the public
6 charter school's performance record to date, based on the data required by this chapter
7 and the charter contract, and must provide notice of any weaknesses or concerns
8 perceived by the authorizer concerning the school that may jeopardize its position in
9 seeking renewal if not timely rectified. The school must be given the opportunity to
10 respond to the performance report and submit any corrections or clarifications for the
11 report.

12 **B.** The renewal application guidance required by this subsection must include or
13 refer explicitly to the criteria and standards that will guide the authorizer's renewal
14 decisions, which must be based on the performance framework set forth in the charter
15 contract and consistent with this chapter. The renewal application guidance must, at a
16 minimum, require and provide an opportunity for the public charter school to:

17 (1) Present additional evidence, beyond the data contained in the performance
18 report, supporting its case for charter renewal;

19 (2) Describe improvements undertaken or planned for the school; and

20 (3) Detail the school's plans for the next charter term.

21 **4. Renewal application.** No later than September 30th of a public charter school's
22 5th year of operation under a term of a charter contract, the governing board of a public
23 charter school seeking renewal shall submit a renewal application to the authorizer
24 pursuant to the renewal application guidance issued by the authorizer under subsection 3.

25 **5. Renewal decision.** An authorizer shall rule by resolution on a renewal application
26 under this section no later than 45 days after the filing of the renewal application. In
27 making charter renewal decisions, every authorizer shall:

28 **A.** Ground its decisions in evidence of the public charter school's performance over
29 the term of the charter in accordance with the performance framework set forth in the
30 charter contract;

31 **B.** Ensure that data used in making renewal decisions are available to the school and
32 the public; and

33 **C.** Provide a public report summarizing the evidence basis for each decision.

34 **6. Charter revocation and nonrenewal.** A decision by an authorizer to revoke or
35 not to renew the charter of a public charter school must be made in accordance with this
36 subsection.

37 **A.** A charter may be revoked at any time or not renewed if the authorizer determines
38 that the public charter school failed to comply with the provisions of this chapter or:

39 (1) Committed a material violation of any of the terms, conditions, standards or
40 procedures required under this chapter or the charter contract;

1 (2) Failed to meet or make sufficient progress toward the performance
2 expectations set forth in the charter contract;

3 (3) Failed to meet generally accepted standards of fiscal management; or

4 (4) Violated any provision of law from which the school was not exempted.

5 B. If an authorizer revokes or does not renew a charter, the authorizer shall clearly
6 state, in a resolution of its governing entity, the reasons for the revocation or
7 nonrenewal.

8 7. Notification to commissioner; appeal. Within 10 days of taking action to renew,
9 not renew or revoke a charter under this section, the authorizer shall report to the
10 commissioner the action taken and shall provide a copy of the report to the public charter
11 school at the same time that the report is submitted to the commissioner. The report must
12 include a copy of the governing entity of the authorizer's resolution setting forth the
13 action taken and reasons for the decision. In case of nonrenewal or revocation, a public
14 charter school may appeal a denial to the commissioner and the commissioner's decision
15 is a final agency action for the purposes of Title 5, chapter 375, subchapter 7.

16 8. School closure and dissolution. In the event of a public charter school closure
17 for any reason:

18 A. The authorizer shall oversee and work with the closing public charter school to
19 ensure timely notification to parents and guardians, orderly transition of students and
20 student records to new schools and proper disposition of school funds, property and
21 assets in accordance with the requirements of this chapter; and

22 B. The assets of the public charter school must be distributed first to satisfy
23 outstanding payroll obligations for employees of the school and then to creditors of
24 the school. Any remaining funds must be paid to the Treasurer of State to the credit
25 of the General Fund. If the assets of the school are insufficient to pay all parties to
26 whom the school owes compensation, the prioritization of the distribution of assets
27 may be determined by decree of a court of law.

28 9. Charter transfers. A charter contract and its oversight may not be transferred
29 from one authorizer to another before the expiration of the charter contract term except by
30 special petition to the commissioner by a public charter school or its authorizer.

31 §2416. Operations

32 1. Legal status. Notwithstanding any provision of law to the contrary, to the extent
33 that any provision of this chapter is inconsistent with any other state or local law, rule or
34 regulation, the provisions of this chapter govern and are controlling.

35 A. A public charter school is subject to all federal laws and authorities, to local law
36 not inconsistent with this chapter and to the charter contract.

37 B. A charter contract may include one or more schools, to the extent approved by the
38 authorizer and consistent with applicable law.

39 C. A single governing board may hold one or more charter contracts. Each public
40 charter school overseen by a particular governing board is a discrete legal entity,
41 separate and distinct from any others.

1 **2. Local educational agency status.** Public charter schools may choose either of
2 the following options concerning local educational agency status:

3 A. Under the first option:

4 (1) The local school district in which the public charter school is located remains
5 the local educational agency and the public charter school is a school within that
6 local educational agency;

7 (2) The public charter school receives services, resources and support in the
8 same manner as other local school district public schools, except that the public
9 charter school is treated as a local educational agency for purposes of applying
10 for competitive federal grants; and

11 (3) The local school district retains responsibility for special education and
12 serves students in public charter schools in a manner consistent with local
13 educational agency obligations under applicable federal, state and local law; and

14 B. Under the 2nd option:

15 (1) The public charter school functions for all purposes as a local educational
16 agency independent of the local school district in which the school is located.
17 Local educational agency status does not preclude a school from developing links
18 to local school districts for services, resources and programs, by mutual
19 agreement or by formal contract;

20 (2) The public charter school is responsible for meeting the requirements of local
21 educational agencies under applicable federal, state and local laws, including
22 those relating to special education, receipt of funds and compliance with funding
23 requirements; and

24 (3) To the extent permitted by federal or state laws, the public charter school has
25 primary responsibility for special education at the school, including identification
26 and provision of service, and is responsible for meeting the needs of enrolled
27 students with disabilities. In instances when a student's individualized education
28 program team, including representatives from the student's local school district of
29 residence, determines that a student's needs are so profound that they cannot be
30 met in the public charter school and that the school cannot provide to the student
31 a free, appropriate public education as defined in section 7001, subsection 2-A,
32 the individualized education program team must work with the student's local
33 school district of residence to find a placement in a more appropriate setting.

34 **3. Powers of public charter schools.** A public charter school has all the powers
35 necessary for carrying out the terms of its charter contract, including the powers to:

36 A. Receive and disburse funds for school purposes;

37 B. Secure appropriate insurance and enter into contracts and leases, free from
38 prevailing wage laws;

39 C. Contract with a nonprofit educational service provider for the management and
40 operation of the school, as long as the school's governing board retains oversight
41 authority over the school;

D. Incur debt in reasonable anticipation of the receipt of public or private funds;

E. Pledge, assign or encumber its assets to be used as collateral for loans or extensions of credit;

F. Solicit and accept any gifts or grants for school purposes subject to applicable laws and the terms of its charter contract;

G. Acquire real property for use as its facility or facilities from public or private sources; and

H. Sue and be sued in its own name.

4. General requirements. A public charter school is subject to the general requirements set out in this subsection.

A. A public charter school may not discriminate against any person on the basis of race, creed, color, sex, disability or national origin or on any other basis that would be unlawful if done by a public school.

B. A public charter school may not engage in any sectarian practices in its educational program, admissions or employment policies or operations.

C. A public charter school may not charge tuition and may only charge such fees as may be imposed by other public schools in the State. A public charter school may charge tuition to an out-of-state student admitted to the school on a space-available basis.

D. The powers, obligations and responsibilities set forth in a charter contract may not be delegated or assigned by either party.

5. Applicability of other laws, rules and regulations. The applicability of other laws, rules and regulations to public charter schools is as set out in this subsection.

A. Public charter schools are subject to the same civil rights, health and safety requirements applicable to other public schools in the State, except as otherwise specifically provided in this chapter.

B. Public charter schools are subject to the same student assessment and accountability requirements applicable to other public schools in the State, but nothing in this chapter precludes a public charter school from establishing additional student assessment measures that go beyond state requirements if the school's authorizer approves such measures.

C. Governing boards are subject to and must comply with Title 1, chapter 13.

D. Except as provided in this chapter and its charter contract, a public charter school is exempt from all statutes and rules applicable to a public school, a local school board or a local school district, although it may elect to comply with one or more provisions of statutes or rules. School administrative units may not interpret this paragraph as reducing their obligation to provide education for their residents.

E. A public charter school is exempt from the restrictions normally associated with any state-funded categorical education funding program.

6. Teachers. This subsection governs teacher employment in a public charter school.

A. A public charter school must comply with applicable federal laws and regulations regarding the qualification of teachers and other instructional staff.

B. At least 2/3 of full-time teachers in a public charter school must hold an appropriate teaching certificate, and each full-time teacher must be certified within 3 years of the teacher's date of hire. Teachers in charter schools have the same rights and privileges as other public school teachers except as otherwise provided in this chapter.

C. A teacher in a noncharter public school may take leave to teach in a public charter school. A local school district must grant service credit to those teachers for teaching experience at a public charter school, as long as their service at a public charter school is reasonably comparable to service in a noncharter public school.

(1) A teacher may apply for a leave of absence in renewable one-year terms, up to a maximum of 2 years.

(2) A teacher on leave from local school district teaching assignments remains eligible for continued union membership and participation in retirement and other benefits programs of the teacher's local school district for as long as the teacher teaches in a public charter school within the State.

D. Teachers and other public charter school personnel, as well as governing board trustees, are subject to criminal history record checks and fingerprinting requirements applicable to other public schools.

E. Teachers at a public charter school may choose to bargain collectively or form a professional group in accordance with this paragraph.

(1) Teachers who are employees of the public charter public charter school have the same rights as other teachers in public education to organize and bargain collectively. Bargaining units at the public charter school must be separate from other bargaining units, such as a district bargaining unit. Staff at noncharter public schools converting to public charter schools have a right to employment benefits as stated in applicable collective bargaining agreements or they may vote to be represented in alternative ways.

(2) A teacher who is an employee of the public charter school may choose to be part of a professional group that operates the instructional program under an agreement with the school, forming a partnership or producer cooperative that the teachers collectively own.

(3) Teachers who are employees of the public charter school may not be required to be members of any existing collective bargaining agreement between a local school district and its employees. A public charter school may not interfere with civil service laws or other applicable rules protecting the rights of employees to organize and be free from discrimination.

7. External audit. A public charter school shall adhere to generally accepted accounting principles and shall annually engage an external auditor to do an independent audit of the school's finances.

1 **§2417. Funding**

2 **1. Enrollment count; report.** Students attending a public charter school must be
3 included in the enrollment, attendance and, if applicable, count of students with
4 disabilities of the local school districts in which the students reside. The public charter
5 school shall report all such data to the local school districts of residence in a timely
6 manner. Each local school district shall report such enrollment, attendance and count of
7 students with disabilities to the department.

8 **2. Revenue provisions.** All state and local operating funds follow each student to
9 the public charter school attended by the student, except that the school administrative
10 unit of the student's residence may retain up to 2% of the per-pupil allocation described in
11 this subsection to cover associated administrative costs.

12 A. For each public charter school student, the school administrative unit in which the
13 student resides must forward the per-pupil allocation to the public charter school
14 attended by the student as follows.

15 (1) The per-pupil allocation amounts must be based on the same per-pupil rates
16 as described in section 15676, subsection 1 that are provided for subsidizable
17 pupils who reside in the school administrative unit and who are educated at
18 public expense for the current fiscal year.

19 (2) For each fiscal year, allocations must be made in 4 quarterly payments on
20 September 1st, December 1st, March 1st and June 1st. The September payment
21 must be based on the number of students enrolled or anticipated to be enrolled in
22 the public charter school at the opening of school for that school year, which may
23 not exceed the maximum enrollment approved in the charter contract for that year
24 unless a waiver is obtained from the authorizer. If the number of students is
25 higher or lower than the number of students in the following February of the
26 school year, adjustments must be made in the June payment, with 50% of the
27 annual per-pupil allocation added for additional students or subtracted if the total
28 number of students is lower.

29 B. School administrative units shall forward to public charter schools state funds for
30 other subsidizable costs as described in section 15681-A on a per-pupil basis, on the
31 same schedule as listed in paragraph A, for transportation, career and technical
32 education, special education costs and the specialized student populations as
33 described in section 15675. Public charter schools may contract or cooperate with
34 noncharter public schools for such services.

35 C. The funding and educational decision-making process for at-risk pupils attending
36 a public charter school is the responsibility of the local educational agency of
37 residence, and all current options available to the parents and the local educational
38 agency through the pupil's original local school district must be retained.

39 (1) Public charter schools must receive state funding for the special education
40 costs as described in section 15681-A, subsection 2 and section 15689-A,
41 subsections 1 and 2 on the same basis as schools in a school administrative unit.

42 (2) The local school district shall also pay directly to the public charter school
43 any federal or state aid attributable to a student with a disability attending the

1 public charter school in proportion to the level of services for the student with a
2 disability that the public charter school provides directly or indirectly.

3 D. Except as otherwise provided in this subsection, a public charter school must
4 receive state and federal aid, grants and revenue through its authorizer, or through the
5 State in the case of Title I of the federal Elementary and Secondary Education Act of
6 1965, 20 United States Code, Section 6301 et seq. and similar programs. A public
7 charter school is deemed a local educational agency for purposes of applying for
8 competitive federal grants. The public charter school may receive gifts and grants
9 from private sources in whatever manner is available to school administrative units.
10 Public charter schools with students eligible for Title I funds must receive and use
11 these funds in accordance with federal and state law.

12 E. A public charter school may not levy taxes or issue bonds secured by tax
13 revenues.

14 F. In the event of the failure of the local school district to make payments required
15 by this section, the Treasurer of State shall deduct from any state funds that become
16 due to the local school district an amount equal to the unpaid obligation. The
17 Treasurer of State shall pay over the amount to the public charter school upon
18 certification of the department. The department shall adopt rules to implement the
19 provisions of this paragraph. Rules adopted pursuant to this paragraph are routine
20 technical rules as defined in Title 5, chapter 375, subchapter 2-A.

21 G. Any money received by a public charter school from any source and remaining in
22 the school's accounts at the end of any budget year remains in the school's accounts
23 for use by the school during subsequent budget years and may not revert to the
24 authorizer or to the State.

25 H. Nothing in this chapter may be construed to prohibit any person or organization
26 from providing funding or other assistance for the establishment or operation of a
27 public charter school. The governing board of a public charter school may accept
28 gifts, donations or grants of any kind made to the school and expend or use such gifts,
29 donations or grants in accordance with the conditions prescribed by the donor except
30 that a gift, donation or grant may not be accepted if subject to a condition that is
31 contrary to any provision of law or term of the charter contract.

32 I. Public charter schools have the same access as other public schools to any risk
33 pool for high-cost special education services and to any fund for fiscal emergencies.

34 **§2418. Facilities**

35 **1. Facilities; property.** A public charter school may acquire facilities and property
36 in accordance with this subsection.

37 A. A public charter school has a right of first refusal to purchase or lease at or below
38 fair market value a closed public school facility or property or unused portions of a
39 public school facility or property located in a local school district from which it
40 draws its students if the local school district decides to sell or lease the public school
41 facility or property. The local school district may not require purchase or lease
42 payments that exceed the fair market value of the property.

B. A public charter school may negotiate and contract with a local school district, the governing body of a state college or university or public community college or any other public or for-profit or nonprofit private entity for the use of a school building.

C. Library, community service, museum, performing arts, theater, cinema, church, community college, college and university facilities may provide space to public charter schools within their facilities under their preexisting zoning and land use designations.

D. A public charter school may purchase or lease at or below fair market value part or all of any surplus or unused state-owned facility or property located in the State. The state agency in control of the facility may not require purchase or lease payments that exceed the fair market value of the property.

2. Inspection; building code. The municipality in which a facility of a public charter school is located is the agency that has jurisdiction for the purposes of inspection of the facility and issuance of a certificate of occupancy for the facility. If the facility is located in an unorganized area of the State, the county has jurisdiction for those purposes. A facility of a public charter school is subject to the same building codes, regulations and fees that apply to other public schools.

§2419. Miscellaneous

1. Access to extracurricular and interscholastic activities. A public charter school is eligible for state-sponsored or local school district-sponsored interscholastic leagues, competitions, awards, scholarships and recognition programs for students, educators, administrators and schools to the same extent as noncharter public schools. A public charter school student is eligible to participate in extracurricular activities not offered by the student's public charter school at the public school within whose attendance boundaries the student's custodial parent or legal guardian resides or the public school from which the student withdrew for the purpose of attending a charter school. A charter school student is eligible for extracurricular activities at a public school subject to eligibility standards applied to full-time students of the public school. A local school district or public school may not impose additional requirements on a public charter school student to participate in extracurricular activities that are not imposed on full-time students of the public school.

2. Retirement. A public charter school may establish a retirement plan or plans for employees.

A. Teachers enrolled in the Maine Public Employees Retirement System who take leave to teach in a public charter school may continue their participation in the Maine Public Employees Retirement System while on such leave.

B. If a public charter school chooses to set up a plan with the Maine Public Employees Retirement System, the public charter school may establish a participating local district plan with the Maine Public Employees Retirement System under Title 5, chapter 425.

Sec. 8. 20-A MRSA §6212 is enacted to read:

§6212. Innovative, autonomous public schools

A school administrative unit may establish and operate an innovative, autonomous public school. The school board may approve an instruction design, a school calendar, a staff selection process and a method for assessing professional development to be used in an innovative, autonomous public school that exceed or differ from, but do not conflict with, applicable statutory and regulatory requirements. The school board shall propose, receive and allocate funding for an innovative, autonomous public school as part of the budget process for that school administrative unit in accordance with this Title. A school board may request waivers as necessary to implement an instructional model and associated curriculum that meet the standards of this section for innovation and autonomy.

1. Open enrollment. Any resident student in a school administrative unit is eligible to request enrollment in an innovative, autonomous public school. Enrollment may not be limited to a target population of students. A school board shall establish a method for selecting students when requests for enrollment exceed capacity. A school board may establish a process for determining the maximum enrollment from each municipality in the school administrative unit.

2. More accountability for student achievement. An innovative, autonomous public school must demonstrate a system for accountability for student achievement that exceeds, but is not in conflict with, the State's accountability standards and the State's assessment system.

Sec. 9. Review of retirement laws. The Maine Public Employees Retirement System shall review the laws governing participating local districts' retirement plans and shall submit, by January 15, 2011, a report to the joint standing committee of the Legislature having jurisdiction over labor matters that includes any proposed legislation necessary to fully implement this Act.

Sec. 10. Appropriations and allocations. The following appropriations and allocations are made.

EDUCATION, DEPARTMENT OF

Charter School Program N083

Initiative: Provides a base allocation in fiscal year 2010-11 for the charter school program.

FEDERAL EXPENDITURES FUND	2009-10	2010-11
All Other	\$0	\$500
FEDERAL EXPENDITURES FUND TOTAL	\$0	\$500

SUMMARY

This amendment is the minority report of the Joint Standing Committee on Education and Cultural Affairs. It establishes a process to authorize the establishment of charter

Federal Expenditures Fund	\$0	\$500	\$500	\$500

Fiscal Detail and Notes

This bill establishes a process which authorizes the creation of charter schools in the State. The requirement that all except up to 2% of the per-pupil allocation associated with subsidizable, other subsidizable and special education costs follow each child to the charter school the child attends may result in a significant redistribution of state and local per-pupil allocation. The impact to individual school units can not be determined at this time. The additional cost to the Department of Education associated with implementing this legislation can be absorbed within existing budgeted resources.

This bill allows for teachers in a non-charter school who are members of the Maine Public Employees Retirement System and take a leave of absence to teach in a charter school to continue to participate in the retirement system while on leave. Although this legislation is not clear as to who will be responsible for the cost, the employee and employer contribution rate for those teachers must continue to be paid.

This bill includes a Federal Expenditures Fund allocation of \$500 in fiscal year 2010-11 to the Department of Education to establish a base allocation for any federal grants that may be received by the Department for the Charter School Program. The amount of grants that may be received by the State can not be determined at this time.

Because the legislation permits but does not require local school administrative units to establish and operate innovative schools that meet all applicable requirements, this fiscal note assumes that school administrative units would do so within existing budgeted resources.

Additional costs to the Maine State Retirement System associated with conducting the required review of retirement plans for participating local districts can be absorbed within the system's operating budget. Additional costs to the Maine Labor Relations Board and Maine Revenue Services associated with this legislation can be absorbed within existing budgeted resources.
