Amend the joint resolution by striking out the title and substituting the following:

Amend the joint resolution by striking everything after the title and inserting the following:

**WHEREAS**, Maine has a long and important tradition of trapping and, although fewer people make a living from trapping now, it is still an important tradition for many of Maine's citizens; and

**WHEREAS**, Maine has been involved for many years in the research and conservation of Canada lynx and is one of the nation's leaders in the conservation of lynx; and

**WHEREAS**, deer are widely loved and appreciated by the public and are important contributors to the State's economy; and

**WHEREAS**, the deer population in areas of northern, eastern and western Maine is low and, although there are several interrelated factors that are likely causing low deer

**SENATE AMENDMENT**

1 numbers, coyote predation is considered an important component of winter deer losses  
2 and early losses among newborn fawns in summer; and

3 **WHEREAS**, during the decade-long process to obtain an incidental take permit for  
4 Maine's trapping program, opponents of trapping have filed 2 lawsuits against the Maine  
5 Department of Inland Fisheries and Wildlife alleging Maine was in violation of the  
6 federal Endangered Species Act because trappers participating in Maine's trapping  
7 program could incidentally capture Canada lynx in their traps; and

8 **WHEREAS**, this litigation resulted in a court-ordered consent decree that provided  
9 significant protections to Canada lynx by imposing a number of restrictions on trapping  
10 activities conducted in northern, eastern and western Maine. The consent decree and its  
11 restrictions on types, size and location of foothold and killer-type traps in northern,

13 Wildlife Service acts favorably on Maine's application for an incidental take permit; and

14 **WHEREAS**, Maine's Game Plan for deer identifies a number of strategies to

25 Delegation.'

26 **SUMMARY**

27 This amendment changes the title of the resolution by referring to Maine's trapping  
28 program, rather than focusing on coyotes only. It changes the same focus in the body of  
29 the resolution and clarifies how receiving an incidental take permit will help the State.
