5 This bill repeals the laws that govern the development and maintenance of a registry
6 of the properties of residents, lessees and property owners who request that their
7 properties be placed on a registry in order that they receive advance notification of the
8 outdoor application of pesticides. In the absence of such a registry, the current rules of
9 the Department of Agriculture, Food and Rural Resources, Board of Pesticides Control
10 will govern notification requirements in connection with the application of pesticides.
