Reproduced and distributed under the direction of the Clerk of the House.

**STATE OF MAINE
HOUSE OF REPRESENTATIVES
125TH LEGISLATURE
FIRST REGULAR SESSION**

COMMITTEE AMENDMENT "A" to H.P. 563, L.D. 756, Bill, "An Act To Limit the Use of Smart Meters"

Amend the bill by striking out the title and substituting the following:

'Resolve, To Examine Cyber Security and Privacy Issues Relating to Smart Meters'

Amend the bill by striking out everything after the title and before the summary and inserting the following:

Sec. 1. Examination of cyber security and privacy issues relating to smart meters. Resolved: That the Public Utilities Commission shall examine current cyber security and privacy requirements that exist under federal and state law, rules and utility policies and practices that apply to transmission and distribution utilities and identify potential regulatory gaps that may exist by examining the extent to which existing federal requirements may or may not apply to cyber security and privacy issues regarding smart meters and related systems. To the extent regulatory gaps exist, the commission shall develop recommendations to address them. As part of this examination, the commission also shall consider issues related to access to customer data and the disclosure of transmission and distribution utility residential electric energy consumption and cost information pursuant to the Maine Revised Statutes, Title 14, section 6045; and be it further

Sec. 2. Monitor federal cyber security initiative. Resolved: That the Public Utilities Commission shall actively monitor the efforts by the United States Department of Energy to launch a cyber security initiative to enhance cyber security on the electric grid with input from the Federal Energy Regulatory Commission, the United States Department of Homeland Security and publicly and privately owned utilities; and be it further

Sec. 3. Report. Resolved: That the Public Utilities Commission shall report the results of its examination and recommendations required pursuant to section 1 and the progress of the federal cyber security initiative as it applies to smart meters and related systems under section 2 to the Joint Standing Committee on Energy, Utilities and

COMMITTEE AMENDMENT

1 Technology by January 15, 2012. The Joint Standing Committee on Energy, Utilities and
2 Technology may submit a bill to the Second Regular Session of the 125th Legislature
3 based on the report. '

4 **SUMMARY**

5 This amendment is the majority report of the committee. It replaces the bill with a
6 resolve directing the Public Utilities Commission to examine current cyber security and
7 privacy requirements in law that apply to transmission and distribution utilities and
8 identify potential gaps in coverage. The commission is also required to monitor federal
9 efforts regarding cyber security and privacy issues regarding smart meters and to report to
10 the Joint Standing Committee on Energy, Utilities and Technology by January 15, 2012.
11 The committee may submit a bill relating to smart meter cyber security and privacy to the
12 Second Regular Session of the 125th Legislature.

125th MAINE LEGISLATURE

LD 756

LR 439(02)

An Act To Limit the Use of Smart Meters

Fiscal Note for Bill as Amended by Committee Amendment "A"
Committee: Energy, Utilities and Technology
Fiscal Note Required: Yes

Fiscal Note

Minor cost increase - Other Special Revenue Funds

Fiscal Detail and Notes

Requiring the Public Utilities Commission to examine federal and state law related to cyber security and privacy requirements including but not limited to those related to smart meters, to monitor federal cyber security efforts and to report recommendations to the Legislature will result in minor cost increases which can be absorbed within existing budgeted resources.
