SUMMARY

10 This bill alters the makeup of the Scallop Advisory Council to include one elected
11 scallop harvester with a valid scallop license from each of the lobster management zones
12 to serve on the council. It decreases the number of appointed members and ensures that
13 the makeup of the council includes a mix of harvesters with hand fishing scallop licenses
14 and dragging licenses. The Department of Marine Resources is directed to adopt routine
15 technical rules governing the elections of council members. The bill also provides that the
16 commissioner must seek the council's approval on decisions that affect the scallop
17 fishery.
