20 SUMMARY

 This bill provides a mechanism for a person whose house is rendered uninhabitable by fire to obtain reimbursement or abatement of property taxes paid or owed on that house for the balance of the tax year following the fire as long as certain conditions are met:

- 1. The house must be the primary residence of the person; and
- 2. The person must obtain a report from the municipal fire inspector for the municipality in which the house is located or from the Department of Public Safety, Office of the State Fire Marshal stating that the house is uninhabitable due to fire. Alternatively, the person may use an order to vacate the premises issued by the State Fire Marshal or a public safety inspector as proof of uninhabitability.

If a person meets these conditions, the municipal officers, or the State Tax Assessor for the unorganized territory, may reimburse or abate any amount up to the amount of property taxes paid or owed on the house only, prorated to reflect the number of days left in the property tax year.

Current law requires municipal fire inspectors or the State Fire Marshal to investigate every instance when property is damaged or destroyed by fire. This bill requires the investigating official, when the fire occurs at a residence, to indicate on the investigation report whether the residence is habitable following the fire and to issue a copy of the report to the owner of the residence, if requested.
