21 reduce the rate of increase in overall health care spending and the rate of increase in

24 State;

25 G. Review and evaluate strategies for payment reform in the State's health care

5 work, including, but not limited to, the Department of Health and Human Services, Maine

11 out the duties and requirements of the commission. Contributions to support the work of
12 the commission may not be accepted from any party having a pecuniary or other vested
13 interest in the outcome of the matters being studied. Any person, other than a state
