126th MAINE LEGISLATURE

FIRST REGULAR SESSION-2013

Legislative Document

No. 679

H.P. 471

House of Representatives, February 26, 2013

Resolve, Regarding the Management of Maine's Brook Trout and Landlocked Salmon Resources

Reference to the Committee on Inland Fisheries and Wildlife suggested and ordered printed.

Millient M. Macfarland MILLICENT M. MacFARLAND Clerk

Presented by Representative HUBBELL of Bar Harbor.
Cosponsored by Senator LANGLEY of Hancock and
Representatives: CASSIDY of Lubec, EVANGELOS of Friendship, KUSIAK of Fairfield,
MAKER of Calais, McCABE of Skowhegan, SHORT of Pittsfield, Senator: HASKELL of
Cumberland.

1 2	Preamble. Whereas, this State has nearly 600 wild and native brook trout lakes and ponds, which is 96% of the brook trout lakes in the entire nation; and
3 4	Whereas, this State has over 175 landlocked salmon waters, the largest number in the country; and
5 6	Whereas, the more we know about these cold-water species, the more we can work towards goals to strengthen their place in our heritage and economic livelihood; and
7 8	Whereas, unlike in the past, very few older landlocked salmon of hatchery origin are being seen, and the State does not have a statewide policy to address this issue; and
9 10 11 12	Whereas, it is important to minimize the negative impact of species that compete with brook trout and landlocked salmon in our waters and to develop a cohesive and well-planned agenda for improving our stock of landlocked salmon and wild and native brook trout; and
13 14 15 16	Whereas, it is important for the State, through the Department of Inland Fisheries and Wildlife, to establish policies and promote practices that recognize the unique and lasting value of Maine's landlocked salmon and brook trout and will enhance the prominence of those fish; now, therefore, be it
17 18 19	Sec. 1. Brook trout and landlocked salmon; protection. Resolved: That the Department of Inland Fisheries and Wildlife shall examine the following issues and recommend policies and develop a statewide plan to address them:
20 21	1. The State's potential to increase and attain greater economic benefit from the State's landlocked salmon and wild and native brook trout populations;
22 23 24	2. The effects of competition with other fish species, including competition resulting from stocking activity, on the State's populations of landlocked salmon and wild and native brook trout; and
25 26	3. The reduction in the number of older landlocked salmon from hatcheries; and be it further
27 28 29 30 31	Sec. 2. Report findings. Resolved: That the Department of Inland Fisheries and Wildlife shall submit a report by January 15, 2014 to the Joint Standing Committee on Inland Fisheries and Wildlife that includes suggested legislation implementing the policies and statewide plan under section 1. The Joint Standing Committee on Inland Fisheries and Wildlife is authorized to submit a bill relating to the report to the Second Regular Session of the 126th Legislature.
33	SUMMARY
34	This resolve directs the Department of Inland Fisheries and Wildlife to examine

certain issues with respect to the current status of brook trout and landlocked salmon in

the State and recommend policies and develop a statewide plan to address these issues.
