House of Representatives, March 19, 2013

### An Act Related to Public Funding of Charter Schools

---

Reference to the Committee on Education and Cultural Affairs suggested and ordered printed.

*Millicent M. MacFarland*  
MILLICENT M. MacFARLAND  
Clerk

Presented by Representative KUSIAK of Fairfield.

1 **Be it enacted by the People of the State of Maine as follows:**

2 **CONCEPT DRAFT**

3 **SUMMARY**

4 This bill is a concept draft pursuant to Joint Rule 208.

5 This bill proposes to amend several funding requirements for public charter schools  
6 established in the Maine Revised Statutes, Title 20-A, chapter 112. The bill proposes  
7 that:

8 1. The Department of Education establish a new program budget account for funding  
9 the operation of public charter schools. Under current law, local school administrative  
10 units must provide funding for students who reside within the school administrative unit  
11 but who enroll in a public charter school. This bill proposes to require that the  
12 Commissioner of Education recommend an annual amount of state funding for students  
13 enrolled in public charter schools, but that funding that supports student enrollment or the  
14 operation of public charter schools may not come from state or local resources allocated  
15 through the General Purpose Aid for Local Schools program;

16 2. The amount of state funding provided by the Department of Education for a  
17 student enrolled in a public charter school may not exceed the combined level of federal,  
18 state and local per-pupil funding that would have been provided for the student had the  
19 student remained in attendance in the student's local school. Public charter schools may  
20 not discriminate among potential students who wish to attend the school based upon the  
21 combined level of federal, state and local per-pupil funding that would follow the student  
22 from the student's sending school administrative unit;

23 3. Virtual public charter schools may not receive state or local funding, except that  
24 state and local resources allocated through the General Purpose Aid for Local Schools  
25 program must be provided by the sending school administrative unit to the virtual public  
26 charter school for a student who experiences education disruption as defined in the Maine  
27 Revised Statutes, Title 20-A, section 5161, subsection 9 and who enrolls in a virtual  
28 public charter school; and

29 4. School administrative units not be responsible for the transportation costs for a  
30 student who resides within the school administrative unit but who enrolls in a public  
31 charter school, and school administrative units not be responsible for providing  
32 transportation for students who are enrolled in a public charter school and who also attend  
33 a career and technical education program that is supported by public funds raised by the  
34 school administrative unit. Public charter school students may access transportation to  
35 the career and technical education program only from a noncharter public secondary  
36 school or another location where career and technical education students gather to access  
37 transportation to the career and technical education program.
