This amendment is modeled on the marketplace premium assistance program enacted into law in New Hampshire. Beginning August 1, 2014, this amendment provides medical assistance under the MaineCare program as a bridge to purchasing insurance coverage from qualified health plans on the federally facilitated exchange for newly eligible adult populations. Beginning July 1, 2015, medical assistance for childless adults is limited to assistance in purchasing insurance coverage from qualified health plans on the federally facilitated exchange under a new program, the Maine Marketplace Premium Assistance program, administered by the Department of Health and Human Services and any additional services approved by the federal Centers for Medicare and Medicaid Services pursuant to a waiver submitted by the department. Under the amendment, the person purchasing such insurance coverage is responsible for assuming cost sharing authorized under federal law, and employees who have access to employer health plans are required to participate in those plans. In order for qualified health plans to participate in the Maine Marketplace Premium Assistance program, plans must offer to each federally qualified health center an opportunity to contract with the plans and ensure that reimbursement for each center is according to the federal Patient Protection and Affordable Care Act.

This amendment directs the Commissioner of Health and Human Services to prepare and submit to the federal Centers for Medicare and Medicaid Services any necessary waivers to implement the Maine Marketplace Premium Assistance program and provides funding for the one-time costs of preparing and submitting any Maine Marketplace Premium Assistance program waivers.

This amendment retains the provisions in Committee Amendment "A" providing for the repeal of the expansion of MaineCare if the enhanced Federal Medical Assistance Percentage for calendar years 2014 to 2016 is reduced below certain stated levels or December 31, 2016, whichever is earlier. In addition, this amendment provides that if a waiver to implement the Maine Marketplace Premium Assistance program has not been approved by July 1, 2015, the expansion of MaineCare eligibility provided under this legislation is repealed 90 days thereafter.
