Report A

L.D. 1761  
(Filing No. H-772)

**ENERGY, UTILITIES AND TECHNOLOGY**

Reproduced and distributed under the direction of the Clerk of the House.

**STATE OF MAINE  
HOUSE OF REPRESENTATIVES  
126TH LEGISLATURE  
SECOND REGULAR SESSION**

COMMITTEE AMENDMENT "A" to H.P. 1263, L.D. 1761, Bill, "An Act To Ensure That Large Public Utility Reorganizations Advance the Economic Development and Information Access Goals of the State"

Amend the bill by striking out everything after the enacting clause and before the summary and inserting the following:

'Sec. 1. 35-A MRSA §708, sub-§2, ¶A, as enacted by PL 1987, c. 141, Pt. A, §6, is amended to read:

A. Unless exempted by rule or order of the commission, no reorganization may take place without the approval of the commission. No reorganization may be approved by the commission unless it is established by the applicant for approval that the reorganization is consistent with the interests of the utility's ratepayers and investors. ~~The commission shall rule upon all requests for approval of a reorganization within 60 days of the filing of the request for approval. If it determines that the necessary investigation cannot be concluded within 60 days, the commission may extend the period for a further period of no more than 120 days.~~ In granting its approval, the commission shall impose such terms, conditions or requirements as, in its judgment, are necessary to protect the interests of ratepayers. These conditions shall must include provisions ~~which assure the following that ensure:~~

- (1) That the commission has reasonable access to books, records, documents and other information relating to the utility or any of its affiliates, except that the Public Utilities Commission may not have access to trade secrets unless it is essential to the protection of the interests of ratepayers or investors. The commission shall afford trade secrets and other information such protection from public disclosure as is provided in the Maine Rules of Civil Procedure;
- (2) That the commission has all reasonable powers to detect, identify, review and approve or disapprove all transactions between affiliated interests;
- (3) That the utility's ability to attract capital on reasonable terms, including the maintenance of a reasonable capital structure, is not impaired;

**COMMITTEE AMENDMENT**

1 (4) That the ability of the utility to provide safe, reasonable and adequate service  
2 is not impaired;

3 (5) That the utility continues to be subject to applicable laws, principles and  
4 rules governing the regulation of public utilities;

5 (6) That the utility's credit is not impaired or adversely affected;

6 (7) That reasonable limitations be imposed upon the total level of investment in  
7 nonutility business, except that the commission may not approve or disapprove of  
8 the nature of the nonutility business;

9 (8) That the commission has reasonable remedial power including, but not  
10 limited to, the power, after notice to the utility and all affiliated entities of the  
11 issues to be determined and the opportunity for an adjudicatory proceeding, to  
12 order divestiture of or by the utility in the event that divestiture is necessary to  
13 protect the interest of the utility, ratepayers or investors. A divestiture order ~~shall~~  
14 must provide a reasonable period within which the divestiture ~~shall~~ must be  
15 completed; and

16 (9) That neither ratepayers nor investors are adversely affected by the  
17 reorganization.

18 **Sec. 2. 35-A MRSA §708, sub-§2, ¶A-1** is enacted to read:

19 A-1. Unless exempted by rule or order of the commission, in addition to the  
20 requirements under paragraph A, before approving a reorganization in which any of  
21 the public utilities that are parties to the proposed transaction is a telephone utility  
22 that has gross annual state revenues exceeding \$50,000,000, the commission:

23 (1) Must find that the proposal will advance the economic development and  
24 information access goals of the State as set forth in section 7101, subsections 2  
25 and 4;

26 (2) Must find that the reorganization does not result in changes to the location  
27 and the accessibility of the telephone utility's management and operations, or the  
28 proportion and number of the telephone utility's employees who reside in the  
29 State, that would adversely affect safety, reliability or quality of service; and

30 (3) Shall impose such terms, conditions or requirements as in the commission's  
31 judgment are necessary to ensure that the reorganization provides an affirmative  
32 benefit to the public.

33 **Sec. 3. 35-A MRSA §708, sub-§6** is enacted to read:

34 6. Time for approval. The commission shall rule upon all requests for approval of a  
35 reorganization, except the approval of a reorganization subject to subsection 2, paragraph  
36 A-1, within 60 days of the filing of the request for approval. If the commission  
37 determines that the necessary investigation cannot be concluded within 60 days, the  
38 commission may extend the period for a further period of no more than 120 days.'

**SUMMARY**

This amendment is the majority report of the committee. The amendment replaces the bill. The amendment requires the Public Utilities Commission to consider additional requirements before approving a reorganization involving a telephone utility with gross annual state revenues greater than \$50,000,000. The commission may approve the reorganization only when it is satisfied that the proposal will advance the economic development and information access goals of the State; that the reorganization does not result in changes to the location and the accessibility of the telephone utility's management and to employment levels in a manner that would adversely affect safety, reliability or quality of service; and that the reorganization provides an affirmative benefit to the public. The amendment also removes the requirement that the Public Utilities Commission rule upon a request for the reorganization of a large telephone utility within 180 days.

## Fiscal Note

Minor cost increase - Other Special Revenue Funds

### Fiscal Detail and Notes

The bill requires the Public Utilities Commission (PUC) to take certain actions before approving a reorganization involving any public telephone utility having gross annual State revenues exceeding \$50,000,000. Any additional costs to the PUC to undertake these activities are expected to be minor and can be absorbed within existing budgeted resources.
