**Fiscal Note for Bill as Amended by Committee Amendment 'A' (H-113)**  
**Committee: Energy, Utilities and Technology**  
**Fiscal Note Required: Yes**

---

## Fiscal Note

Potential current biennium revenue increase - Efficiency Maine Trust  
Potential current biennium cost increase - Efficiency Maine Trust

### Fiscal Detail and Notes

Under current law the Public Utilities Commission (PUC) is allowed to require certain utilities to provide funding for electric conservation and efficiency programs administered by the Efficiency Maine Trust (EMT). The maximum amount that may be included in rates is 4% of transmission and distribution sales. This bill will change the maximum amount that may be included in rates to 4% of total retail electricity and transmission and distribution sales. The current cap is estimated to have allowed a maximum of \$25,000,000 annually be collected and passed to the EMT and the PUC has already granted a rate increase of \$18,500,000 for fiscal year 2015-16. The proposed cap in this bill is an estimated \$59,000,000.
