9 based graduation in accordance with section 4722-A by January 1, 2017 must include
10 specific information about the reason for the waiver request and a date by which the
11 proficiency-based graduation requirement will be met. Any waiver granted by the
12 commissioner under this paragraph must require an annual report to the
13 commissioner on the school administrative unit's progress toward meeting the
14 requirements of section sections 4722 and 4722-A. This paragraph is repealed July 1,

17 **SUMMARY**

18 This bill amends the current education statutes related to requirements for awarding a
19 high school diploma to establish a blended system of graduation requirements that
20 provides that a diploma indicating graduation from a secondary school must be awarded
21 to students who accumulate at least 20 academic credits documenting the successful
22 completion of courses and demonstrate proficiency in meeting state standards in at least 2
23 content areas of the system of learning results established under the Maine Revised
24 Statutes, Title 20-A, section 6209. The bill also provides that a school administrative unit
25 may award an endorsement of content area proficiency to a student who has demonstrated
26 proficiency in a content area of the system of learning results. This bill accomplishes the
27 following.

28 1. It amends the basic school approval standards that guide curriculum and
29 instruction and promote student advancement and graduation to include language for
30 transitioning to the blended system. Specifically, it provides that a school administrative
31 unit's comprehensive education plan must include a plan for transitioning to the blended
32 system.

33 2. It provides that, beginning in the 2016-2017 school year, diplomas must be
34 awarded to students who meet the new curriculum and instructional requirements
35 established for secondary schools and school boards must adopt policies to phase in these
36 new requirements.

37 3. It strikes the provision that would repeal, on July 1, 2020, the standards for
38 awarding high school diplomas to secondary school students who successfully complete
39 courses required for graduation in accordance with Title 20-A, section 4722, thus
40 providing that these standards will continue to apply as part of the blended system.

1 4. It removes the requirement that a diploma indicating graduation from a secondary
2 school on or after January 1, 2017 must be based on student demonstration of proficiency
3 in all content areas established under the system of learning results and instead provides
4 that a diploma indicating graduation must be based on student demonstration of
5 proficiency in at least 2 content areas established under the system of learning results.

6 5. It provides that an endorsement of content area proficiency must be included in a
7 student's academic transcript as an official credential of academic achievement of content
8 area proficiency.

9 6. It directs the Department of Education to adopt or amend rules pursuant to Title
10 20-A, section 253, subsection 9 by December 31, 2015 in order to implement the new
11 blended system beginning with the 2016-2017 school year.
