SUMMARY

This amendment, which is the majority report of the committee, clarifies the application of the bill, which requires reimbursement under the MaineCare program for dental services to an adult with an intellectual disability or autism spectrum disorder, by:

1. More clearly defining the requirement that the persons be eligible under the so-called Sections 21 and 29 waivers, without referring to departmental rule citations that may change over time; and

2. Providing that reimbursement is in addition to any home and community-based support benefits provided to a person and may not be included in any cap or other limitation on the home and community-based support benefits that the person may receive.

The amendment also adds an appropriations and allocations section.
