10 SUMMARY

11 This bill establishes 2 programs intended to strengthen the financial stability of low-
12 income families with children and individuals through increased access to education and
13 training services and the support services needed to participate.

14 The first program is a food supplement employment and training program that
15 requires partnership agreements to be made between the Department of Health and
16 Human Services and 3rd-party educational institutions or community-based organizations
17 that meet certain standards to provide education, training and support services to eligible
18 adults who are food supplement benefit recipients. This program is supported with
19 federal supplemental nutrition assistance program funds.

20 The 2nd program is a companion to the current Parents as Scholars Program and is
21 available to persons with minor children who do not qualify for cash assistance under the
22 Temporary Assistance for Needy Families program, who have incomes at or below 185%
23 of the federal poverty level and who are pursuing a postsecondary degree, industry-
24 recognized certificate or similar credential in a field or occupation that has at least an
25 average job outlook as identified by the Department of Labor. This program is funded
26 with Temporary Assistance for Needy Families block grant funds.
