6 B. That the necessary manufactured goods are not produced in the United States in

39 requirements of Title 26, chapter 15 and notwithstanding any other provision of law to

1 the contrary, except as provided in subsection 2, the department, in awarding a bid for the
2 construction, reconstruction, alteration, repair, improvement or maintenance of a public
3 building or public work or for services provided to or on behalf of the State, shall award
4 the bid to an in-state contractor if that in-state contractor's bid is substantially similar to
5 other submitted bids. If an in-state contractor submits a bid that is substantially higher
6 than other submitted bids, the department shall give that in-state contractor the
7 opportunity to match the lowest bid submitted. If more than one in-state contractor
8 submits a bid that is substantially similar to other submitted bids, each must be given the
9 opportunity to revise and resubmit that contractor's bid.

10 **2. Exception.** If the department determines, by a preponderance of evidence, that a
11 bid submitted by an in-state contractor is frivolous or that the in-state contractor is
12 incapable of satisfactorily completing the contract, the department may refuse to award
13 the bid to that in-state contractor.

14 **3. Grievance; investigation; mediation.** An in-state contractor that is not awarded
15 a bid pursuant to subsection 1 may request, within 30 days of the award of the bid, the
16 Attorney General to investigate the bidding process and award to determine whether the
17 procedure in subsection 1 was adhered to by the department or, if the contract was not
18 awarded pursuant to subsection 2, whether the department's determination was valid. If
19 the Attorney General determines that the department has not followed the procedure
20 specified in subsection 1, the Attorney General may act as a mediator in a dispute
21 between the in-state contractor and the department.

22 **§1780-A. Rules**

23 The department shall adopt routine technical rules as described in chapter 375,
24 subchapter 2-A to implement this subchapter.

25 **Sec. 2. Effective date.** This Act takes effect September 1, 2020.

26 **SUMMARY**

27 This bill establishes the Maine Buy American and Build Maine Act and requires that
28 all contracts for the construction, reconstruction, alteration, repair, improvement or
29 maintenance of a public building or public work made by a state agency, board,
30 commission or institution contain a provision that the manufactured goods, including
31 iron, cement and steel, used or supplied in the performance of the contract or any
32 subcontract to the contract must be manufactured in the United States. This requirement
33 does not apply to counties, municipalities or school administrative units.

34 The bill requires that, in the case of a manufactured good other than an iron, cement
35 or steel product, all of the manufacturing processes take place in the United States and the
36 origin of the manufactured good's components or subcomponents meet a minimum level
37 of domestic content as established by rule.

38 Under the Act, a public agency may apply to the Governor or the Governor's designee
39 for a waiver of the requirement if the executive head of the public agency finds that the
40 application of the requirement would be inconsistent with the public interest, that the

1 necessary manufactured goods are not produced in the United States in sufficient and
2 reasonably available quantities and of a satisfactory quality or that inclusion of
3 manufactured goods made in the United States will increase the cost of the overall project
4 contract by an unreasonable amount. The Department of Administrative and Financial
5 Services is directed to develop rules to implement the Act.

6 The bill requires that, if the department has reason to believe that any person,
7 business or other entity has intentionally made fraudulent representations about the
8 domestic content of a manufactured good or has intentionally violated any provision of
9 the Act, the department must, after a hearing, debar that person, business or other entity
10 from contracts or subcontracts with the State for 2 years.

11 The bill provides that the provisions of this legislation must be applied in a manner
12 consistent with the State's obligations under any applicable international agreements
13 pertaining to government procurement.

14 The bill also requires that, in the award of a bid for the construction, reconstruction,
15 alteration, repair, improvement or maintenance of a public building or public work or for
16 services to be provided to or on behalf of the State, if 2 or more bids are submitted that
17 are substantially similar, preference must be given to the bid submitted by an in-state
18 contractor, which includes a business at which at least 60% of the employees are
19 residents of Maine. If the bid submitted by an in-state contractor is higher than the lowest
20 bid submitted by a contractor that is not an in-state contractor, the in-state contractor must
21 be given the opportunity to match the lowest bid submitted.
