SUMMARY

This bill allows boards of school administrative districts, regional school units, community school districts and career and technical education regions to expend reserve funds by a vote of the board for emergencies necessitating immediate expenditures when obtaining voter permission would be cost-prohibitive or when the expenditures are required by law.

It also changes what a reserve fund may be established for, from funding school construction projects, financing the acquisition or reconstruction of a specific type of capital improvement or financing the acquisition of a specific item or type of capital equipment, to providing funds for any direct instruction or instructional support purpose.
