16 final compensation at retirement, whichever is greater, adjusted by the same
17 percentage adjustments granted under section 18407.

24 paragraph, that the disability of a person no longer exists, the payment of the
25 disability retirement benefit ceases.

26 (5) The executive director shall notify the person in writing of the decision to
27 discontinue the disability retirement allowance under subparagraph (2) or (4).

28 (a) The decision is subject to appeal under section 17451.

29 (b) If the person appeals the executive director's decision, the disability
30 retirement allowance may not be discontinued until all appeals have been
31 exhausted.

35 **SUMMARY**

36 This bill amends the laws relating to disability retirement under the Maine Public
37 Employees Retirement System and makes other changes relating to the structure of the
38 Maine Public Employees Retirement System. This bill:

1 1. Repeals the laws providing for a medical board to review applications for
2 disability retirement;

3 2. Provides that the system's hearing officers are not employees of the Board of
4 Trustees of the Maine Public Employees Retirement System but independent contractors
5 that serve as neutral and independent decision makers;

6 3. Modifies the definition of "disabled";

7 4. Provides that a member seeking disability retirement must obtain a residual
8 functional capacity assessment from a health care provider. The bill defines "health care
9 provider." The board may find that a member has a mental or physical disability and is
10 eligible for disability retirement based on the information provided through the
11 assessment. If the board is unable to determine whether the member is eligible for
12 disability retirement based on the information provided through the assessment, the board
13 must direct the member to have an independent medical examination by an independent
14 health care provider. After an independent medical review, the board must refer the
15 member's application to a disability specialist, who must, in consultation with the board,
16 make a finding of disability based upon the totality of the evidence. A final decision of
17 the board that the member is not disabled may be appealed by the member to a hearing
18 officer. An adverse decision by the hearing officer may be appealed to the court, which
19 must review the matter de novo;

20 5. Provides that, beginning with the first full month following the receipt of a
21 residual functional capacity form that states a member is unable to perform essential
22 functions of a job due to a disability that is expected to last at least 12 months, the
23 member must be granted a preapproval benefit calculated at 50% of full disability
24 retirement for 6 months or until a determination of disability is made entitling the
25 member to full disability retirement, whichever comes first. This preapproval payment
26 may be made upon a disability application only once within a 5-year period;

27 6. Provides that, when reviewing medical evidence in making a determination of
28 disability, the board, disability specialists and hearing officers must primarily consider
29 medical opinions in the record and whether the opinions are supported by sound medical
30 evidence and are consistent with other medical evidence in the record; and

31 7. Provides that, if a member has retained services of an attorney to represent the
32 member before a hearing officer or in a court proceeding on appeal of a hearing officer's
33 decision and the fee arrangement has been approved by the hearing officer or the court
34 and the attorney obtains a favorable result for the member, the attorney's legal fees must
35 be paid by the board up to a maximum of \$12,000. The attorney may have a contingency
36 fee arrangement, in which case any payment from the board must be applied toward the
37 satisfaction of the contingency fee.
