**SUMMARY**

This amendment, which is the majority report, provides that the member of the Board of Pesticides Control who is a scientist from the University of Maine having practical experience and expertise in integrated pest management must specialize in agronomy, entomology or plant pathology. The amendment also strikes the requirement in the bill that the 2 members of the board appointed to represent the public must represent different geographic areas of the State. Finally, the amendment specifies that a member of the board appointed to represent the public may not have a financial interest in activities regulated by the board and may not be an individual who has been or is currently licensed, certified or given a permit in this or any other state for activities regulated by the board.
