**SUMMARY**

This amendment, which is the majority report of the committee, replaces the bill. The amendment provides for the Maine Development Foundation to ensure the inclusion of youth needs, perspectives and related data in public policy making, especially for people 15 to 29 years of age, within its current work to develop, recommend and implement specific strategies and efforts to attract and retain youth in this State. The Maine Development Foundation is directed, to the extent resources are available, to develop and implement a youth-led process, including a youth-led task force or similar group, in order to achieve these goals and to maintain the youth-led task force until September 1, 2024 or until such time as the Maine Development Foundation or the task force recommends its dissolution or transition to an alternate structure. Such a process may align with current efforts within the existing Maine Development Foundation's Realize Maine Network. The Maine Development Foundation is directed to report to the Legislature concerning this work annually from February 1, 2022 to 2025. The joint standing committee of the Legislature having jurisdiction over innovation, development, economic advancement and business matters may report out a bill based on the report to the 130th Legislature and the 131st Legislature. The amendment also adds an appropriations and allocations section.
