This resolve requires the Department of Corrections to convene a working group to identify when the following terms are used in a stigmatizing manner in the Maine Revised

Statutes and executive branch rules, forms, policies and publications: "convict," "offender," "inmate," "prisoner" and "drug user." The working group is tasked with identifying the appropriate replacement terms to be used and considering the following terms as replacement options: "person who has committed a crime," "resident" or "person who uses drugs."

The working group includes at least one person each from the Department of Corrections, the Department of Public Safety, the Department of Health and Human Services and the Department of Agriculture, Conservation and Forestry. A member of the public with lived experience of incarceration, recovery or neurodivergence is selected by the members and invited to assist the working group.

By December 1, 2021, the Department of Corrections is required to provide a report with the working group's findings and recommendations to the Joint Standing Committee on Criminal Justice and Public Safety. The committee has the authority to introduce legislation in the Second Regular Session of the 130th Legislature based on the report.
