### Fiscal Detail and Notes

This bill includes ongoing General Fund appropriations of \$34,021,267 per year beginning in fiscal year 2022-23 to the School Finance and Operations program within the Department of Education for the costs to the State to pay the difference between the federal reimbursement for a free breakfast or lunch and the full price of a breakfast or lunch for each student that is ineligible for a free or reduced-price lunch. The Department of Education has received a waiver from the United States Department of Agriculture to provide free meals to students for the 2021-2022 school year. Therefore, no General Fund appropriations are required for fiscal year 2021-22.

Based on information provided by the Department of Education, this estimate assumes that 39% of the approximately 2.7 million lunches served per month, or 1.06 million, are served to students who are paying full price for the meal and that the cost to the State to pay for that meal is \$2.85, for a monthly cost of \$3.02 million. The total cost to the State for school lunches, assuming a 10 month school year, is \$30.2 million.

The estimate also assumes that 29% of the approximately 8.4 million breakfasts served in a school year, or 2.4 million, are served to students who are paying full price for the meal and that the cost to the State to pay for that meal is \$1.57 per meal for a total cost of \$3.8 million per school year.
