Fiscal Note for Senate Amendment "A" to Committee Amendment "A" (S-573)

Sponsor: Sen. Claxton of Androscoggin

Fiscal Note Required: Yes

Fiscal Note

Reduces rulemaking requirements

Fiscal Detail and Notes

Removing the requirement that the Department of Education adopt rules to revise its school nutrition and physical activity standards to increase obesity prevention in public schools will reduce the costs to the department associated with the rulemaking process. As amended, the department, along with the Department of Health and Human Services, will still need to adopt rules to revise their nutrition, physical activity, screen time and sugary drink standards to increase obesity prevention in early care and education.
