Sec. NN-1. 35-A MRSA §10109, sub-§3-A, as amended by PL 2017, c. 282, §1, is repealed.

Sec. NN-2. 35-A MRSA §10109, sub-§4, as amended by PL 2019, c. 69, §1, is further amended to read:

4. Expenditures; projects. Except for ~~transfers required under subsection 3-A and~~ other costs authorized in accordance with this chapter, funds in the trust fund must be expended in accordance with this subsection.

A. Trust funds must be allocated for measures, investments, loans, technical assistance and arrangements that reduce electricity consumption, increase energy efficiency or reduce greenhouse gas emissions and lower energy costs at commercial or industrial facilities and for investment in measures that lower residential heating energy demand

OF S

and reduce greenhouse gas emissions. The measures that lower residential heating demand must be fuel-neutral and may include, but are not limited to, energy efficiency improvements to residential buildings and upgrades to efficient heating systems that will reduce residential energy costs and greenhouse gas emissions, as determined by the board. The trust shall ensure that measures to reduce the cost of residential heating are available for low-income households as defined by the trust. When promoting electricity cost and consumption reduction, the trust may consider measures at commercial and industrial facilities that also lower peak capacity demand. Subject to the apportionment pursuant to this subsection, the trust shall fund conservation programs that give priority to measures with the highest benefit-to-cost ratio, as long as cost-effective collateral efficiency opportunities are not lost, and that:

(1) Reliably reduce greenhouse gas production and heating energy costs by fossil fuel combustion in the State at the lowest cost in funds from the trust fund per unit of emissions; or

(2) Reliably increase the efficiency with which energy in the State is consumed at the lowest cost in funds from the trust fund per unit of energy saved.

B. Expenditures from the trust fund relating to conservation of electricity and mitigation or reduction of greenhouse gases must be made predominantly on the basis of a competitive bid process for long-term contracts, subject to rules adopted by the board under section 10105. Rules adopted by the board to implement the competitive bid process under this paragraph may not include an avoided cost methodology for compensating successful bidders. Bidders may propose contracts designed to produce greenhouse gas savings or electricity conservation savings, or both, on a unit cost basis. Contracts must be commercially reasonable and may require liquidated damages to ensure performance. Contracts must provide sufficient certainty of payment to enable commercial financing of the conservation measure purchased and its installation.

C. The board may target bid competitions in areas or to participants as they consider necessary, as long as the requirements of paragraph A are satisfied.

D. Community-based renewable energy projects, as defined in section 3602, subsection 1, may apply for funding from the trust to the extent they are eligible under paragraph A.

E. The size of a project funded by the trust fund is not limited as long as funds are awarded to maximize energy efficiency and support greenhouse gas reductions and to fully implement the triennial plan.

F. No more than \$800,000 of trust fund receipts in any one year may be used for the costs of administering the trust fund pursuant to this section. The limit on administrative costs established in this paragraph does not apply to the following costs that may be funded by the trust fund:

(1) Costs of the Department of Environmental Protection for participating in the regional organization as defined in Title 38, section 580-A, subsection 20 and for administering the allowance auction under Title 38, chapter 3-B; and

(2) Costs of the Attorney General for activities pertaining to the tracking and monitoring of allowance trading activity and managing and evaluating the trust's funding of conservation programs.

ROWS

G. In order to minimize administrative costs and maximize program participation and effectiveness, the trustees shall, to the greatest extent feasible, coordinate the delivery of and make complementary the energy efficiency programs under this section and other programs under this chapter.

H. The trust shall consider delivery of efficiency programs by means of contracts with service providers that participate in competitive bid processes for reducing energy consumption within individual market segments or for particular end uses.

I. A trade association aggregator is eligible to participate in competitive bid processes under this subsection.

J. Trust fund receipts must, upon request by the Department of Environmental Protection, fund research approved by the Department of Environmental Protection in an amount of up to \$100,000 per year to develop new categories for carbon dioxide emissions offset projects, as defined in Title 38, section 580-A, subsection 6, that are located in the State. Expenditures on research pursuant to this paragraph are not considered administrative costs under paragraph F, subparagraph (1).

K. The trust shall establish an industrial climate transition initiative to develop and support climate change mitigation strategies designed to reduce greenhouse gas emissions at industrial facilities in the State. In establishing the initiative and developing climate change mitigation strategies for industrial facilities, the trust shall:

(1) Prioritize mitigation strategies identified in the State's climate action plan, as adopted and updated under Title 38, section 577, that offer the most cost-effective means of reducing greenhouse gas emissions at industrial facilities; and

(2) Consider mitigation strategies and other recommendations identified by any working group, task force or other advisory body that is established by the Maine Climate Council, established under Title 38, section 577-A, to develop strategies and other recommendations to reduce greenhouse gas emissions at industrial facilities in the State.

The trust may allocate funds from the trust fund, and may expend any federal funds or other public or private funding that may be available, to establish the initiative under this paragraph and to develop and support climate change mitigation strategies designed to reduce greenhouse gas emissions at industrial facilities in the State.

Sec. NN-3. Appropriations and allocations. The following appropriations and allocations are made.

EFFICIENCY MAINE TRUST

Efficiency Maine Trust Z100

Initiative: Provides one-time funding to the Efficiency Maine Trust to be deposited in the Regional Greenhouse Gas Initiative Trust Fund established under the Maine Revised Statutes, Title 35-A, section 10109, subsection 2 and used to fund the establishment and activities of the industrial climate transition initiative under Title 35-A, section 10109, subsection 4, paragraph K.

FEDERAL EXPENDITURES FUND - ARP STATE	\$6,000,000	\$0
FISCAL RECOVERY TOTAL		

Amend the amendment by relettering or renumbering any nonconsecutive Part letter or section number to read consecutively.

SUMMARY

This amendment changes Committee Amendment "A" in the following ways:

1. It increases from \$20,000,000 to \$25,000,000 the allocation for additional economic recovery grants in fiscal year 2021-22;
2. It increases the transfer to the Department of Labor, Unemployment Compensation Fund from \$80,000,000 to \$100,000,000;
3. It increases from \$14,646,609 to \$24,728,609 in fiscal year 2022-23 the allocation to the Department of Economic and Community Development for the support and leveraging of private investments in research, development and innovation in the State's technology sectors;
4. It decreases the allocation for the Doctors for Maine's Future Scholarship Program from \$1,000,000 to \$400,000 in fiscal years 2021-22 and 2022-23;
5. It removes the allocation to the Department of Labor to contract with a media consulting firm to design and implement a campaign that promotes direct care worker jobs as a career choice;
6. It removes the allocation to the Department of Economic and Community Development to support coworking development and integrating remote workers;
7. It reduces from \$7,500,000 to \$4,000,000 the allocation to the Department of Education in fiscal year 2021-22 to fund competitive grants for higher education institutions and adult education programs;
8. It removes the requirement that the Maine State Housing Authority enter into project labor agreements requiring the use of workers who have participated in collective bargaining and that the authority require persons awarded contracts for affordable housing projects to demonstrate a good faith effort to promote workforce diversity;
9. It removes the requirement that the Efficiency Maine Trust provide initiatives to develop and support climate change mitigation strategies to reduce greenhouse gas emissions at industrial facilities in the State;
10. It reduces from \$40,000,000 to \$35,000,000 in fiscal year 2022-23 the allocation to the Maine State Housing Authority to expand affordable housing options;
11. It removes the requirement that the newly created Maine Connectivity Authority collaborate with organizations representing marginalized and historically disadvantaged groups when making determinations for the distribution of funds for affordable high-speed broadband;
12. It removes the contingent allocation of \$10,000,000 to the Department of Transportation, Multimodal Transportation Fund for the construction of a confined aquatic

1 disposal cell in the Port of Portland and dredging of the marine facilities of Portland and
2 South Portland;

3 13. It removes all of Part AA, which reinstates the State's property tax deferral program
4 for the elderly and disabled;

5 14. It removes the requirement that landlords test private wells for arsenic every 5
6 years as well as the requirement that the Department of Health and Human Services amend
7 its rules regarding drinking water to revise the maximum contaminant level for arsenic;

8 15. It removes Part CC, which directs the Department of Health and Human Services
9 to establish the Family Caregiver Grant Pilot Program;

10 16. It allocates \$5,500,000 in fiscal year 2021-22 to the Department of Environmental
11 Protection for the installation of a high-efficiency biomass combined heat and power
12 system at the Duvaltex facility in Guilford;

13 17. It removes the allocation of \$4,000,000 to the Maine Commission on Indigent
14 Legal Services to aid in reducing the backlog of cases;

15 18. It removes the allocation of \$500,000 in fiscal years 2021-22 and 2022-23 to the
16 Permanent Commission on the Status of Racial, Indigenous and Maine Tribal Populations
17 to support the development of investments in public health infrastructure to reduce racial
18 disparities in outcomes in minority groups;

19 19. It removes Part HH, which establishes a Housing Navigation Pilot Program;

20 20. It removes Part II, which requires the Commissioner of Economic and Community
21 Development to establish a pilot project for outreach to active military members
22 transitioning to civilian life to encourage them to relocate to Maine;

23 21. It removes Part JJ, which establishes a public service campaign to promote direct
24 care worker jobs;

25 22. It removes Part KK, which requires the Commissioner of Agriculture,
26 Conservation and Forestry to work with the Department of Economic and Community
27 Development and other relevant state agencies, industry stakeholders and community
28 organizations to: strengthen the State's agricultural, food and forest products economy with
29 a priority of making resulting efforts more inclusive of and increasing investments in
30 historically marginalized, underrepresented and underserved communities; improve
31 investment in agricultural, food and forest products industries to increase access to new
32 markets in ways that balance the desire for short-term returns on investment with the State's
33 commitment to redress racial and other inequities; establish the Maine Agriculture, Food
34 and Forest Products Investment Fund to facilitate strategic investments in the State's
35 agricultural, food and forest products processing and manufacturing industries, including
36 value-added products; and establish the Maine Agriculture, Food System and Forest
37 Products Infrastructure Investment Advisory Board, representing a diversity of skills and
38 experience relevant to investment in agricultural, food and forest products industries and
39 the racial diversity of the food system in the State with specific representation by Indian
40 tribes, communities of color and other underserved communities and populations, to
41 determine disbursements from and oversee the Maine Agriculture, Food and Forest
42 Products Investment Fund, to devise a process for requests for proposals and enter into 3rd-
43 party contracts to carry out the purposes of the fund and related technical assistance

OFFS

1 programs and to provide regular reporting and evaluation related to performance and
2 sustainability; and

3 23. Part NN repeals provisions concerning the Regional Greenhouse Gas Initiative
4 Trust Fund in the Maine Revised Statutes, Title 35-A, section 10109 regarding the transfer
5 of funds from that fund to the Public Utilities Commission for disbursement to affected
6 customers to support efficiency measures. It directs the Efficiency Maine Trust to establish
7 an industrial climate transition initiative to develop and support climate change mitigation
8 strategies designed to reduce greenhouse gas emissions at industrial facilities in the State.
9 It provides an allocation of \$6,000,000 in fiscal year 2021-22 to the Regional Greenhouse
10 Gas Initiative Trust Fund within the Efficiency Maine Trust to fund the establishment and
11 activities of that industrial climate transition initiative.
