APPENDIX A

Apportionment Plan for the Maine House of Representatives

In apportioning Maine's 151 House Districts, the Commission utilized the 2020 U.S. Census population figure of 1,362,359 for the State of Maine. The median or ideal district was determined to have a population of 9,022. A district population 5% above the median would be 9,473; a district 5% below the median would be 8,571. The districts recommended by the Commission range in population size from a low of 8,578 to a high of 9,465. The largest deviation from the median for the House plan is -4.93%, and the average deviation from the median for the House plan is 2.74%. The absolute deviation of the House plan is 9.84%.

Note that the House District numbers used here are for presentation purposes only and may not reflect the final numbers assigned to the districts by the Legislature.
