SUMMARY

This amendment, which is the majority report of the committee, changes the bill title and expands the list of persons who may receive an absentee ballot after the 31d business day before election day to include voters who self-certify as a person with a physical or mental disability, rather than a person with a physical disability as current law provides, and to include a voter's caregiver, who, as a result of the voter's incapacity or illness, is unable to attend the polls during the entire time the polls are open on election day rather than including a voter who is an informal caregiver, parent or guardian providing direct support to a person with a disability as provided in the bill. It also expands the current provision regarding voters who are residents of a coastal island ward or precinct to include any island ward or precinct.
