6 **SUMMARY**

7 This bill requires testing of well water for perfluoroalkyl and polyfluoroalkyl

9 Under the bill, for residential property that uses a private water supply, the seller of that
10 property is required to disclose a water test that indicates the presence of perfluoroalkyl
11 and polyfluoroalkyl substances. The bill also adds perfluoroalkyl and polyfluoroalkyl
12 substances to the list of contaminants in the Department of Health and Human Services
13 uniform testing recommendations for private drinking water wells.
