1 **Emergency preamble. Whereas,** acts and resolves of the Legislature do not
2 become effective until 90 days after adjournment unless enacted as emergencies; and

3 **Whereas,** this resolve establishes the Blue Ribbon Commission to Design a Plan for
4 Sustained Investment in Preventing Disease and Improving the Health of Maine
5 Communities; and

6 **Whereas,** tobacco users are switching to electronic cigarettes, which are not included
7 in the tobacco Master Settlement Agreement pursuant to the lawsuit *State of Maine v. Philip*
8 *Morris, et al.*, Kennebec County Superior Court, Docket No. CV-97-134; and

9 **Whereas,** the switch to electronic cigarettes has diminished the payments to the
10 tobacco Master Settlement Agreement and therefore reduced the funds received by the
11 Fund for a Healthy Maine without reducing the harm to public health from tobacco; and

12 **Whereas,** more funds are allocated through the Fund for a Healthy Maine baseline
13 budget than the State receives from the tobacco Master Settlement Agreement, resulting in
14 an unsustainable structural deficit in the Fund for a Healthy Maine; and

15 **Whereas,** Fund for a Healthy Maine funds are essential for funding tobacco
16 prevention and treatment, other chronic disease prevention initiatives and health promotion
17 efforts in the State, particularly for the benefit of children and families in the State; and

18 **Whereas,** public health problems are seldom solved and health and economic benefits
19 are rarely measurable within a 2-year state budget cycle; and

20 **Whereas,** the structural limitations of the State's 2-year budget cycle result in an
21 ongoing loss of opportunities to plan and invest in long-term, evidence-informed primary
22 and secondary chronic disease prevention initiatives; and

23 **Whereas,** the State receives funds from multiple legal settlements with manufacturers
24 and excise taxes on products that affect public health and well-being but lacks the system
25 and structure necessary to maximize benefit through coordinated planning and sustained
26 investment in preventing disease and improving the health of communities in the State; and

27 **Whereas,** the work of the Blue Ribbon Commission to Design a Plan for Sustained
28 Investment in Preventing Disease and Improving the Health of Maine Communities must
29 be initiated before the 90-day period expires in order that the commission's work may be
30 completed and a report submitted in time for submission to the next legislative session; and

31 **Whereas,** in the judgment of the Legislature, these facts create an emergency within
32 the meaning of the Constitution of Maine and require the following legislation as
33 immediately necessary for the preservation of the public peace, health and safety; now,
34 therefore, be it
