### Fiscal Detail and Notes

Any additional costs to the Public Utilities Commission (PUC) to implement the provisions of this bill regarding Class II resources are expected to be minor and can be absorbed within existing budgeted resources. Currently, the PUC coordinates with the Maine State Housing Authority (MSHA) to administer existing PUC low-income assistance programs. The PUC anticipates that the new revenues from alternative compliance payments related to Class II resources will be transferred to the MSHA and expended within existing low-income assistance programs.
