SUMMARY

This amendment replaces the bill and changes the title. It establishes the Fund for a Healthy Maine Stabilization Fund as a subaccount of the Fund for a Healthy Maine. It requires the State Controller to credit all nonparticipating manufacturer adjustments disputed for 2026 and 2027, 10% of nonparticipating manufacturer adjustments disputed for 2028 and thereafter and a proportionate share of interest or other investment income on balances in the Fund for a Healthy Maine. It provides that funds must be used to eliminate the need for the working capital advance before April 30, 2028.

The amendment requires that, if the need for a working capital advance is not eliminated before April 30, 2028, any funds in the stabilization fund remaining in subsequent years must be used to reduce reliance on those sources until all settlement payments can be allocated to the fiscal year following the year the settlement payments are received. Any remaining funds may be used for research and planning activities to supplement and connect current efforts among state agencies and stakeholders and for health promotion purposes allowable within the Fund for a Healthy Maine.

If the stabilization fund is eliminated or dissolved for any reason, the State Controller must transfer the balance of funds back to the Fund for a Healthy Maine.
