1 **Emergency preamble.** Whereas, acts and resolves of the Legislature do not
2 become effective until 90 days after adjournment unless enacted as emergencies; and

3 **Whereas,** the United States Department of Agriculture has changed the funding
4 structure of the Supplemental Nutrition Assistance Program, which will require the State
5 to contribute as much as 15% of program costs if the error rate for eligibility determinations
6 exceeds certain thresholds; and

7 **Whereas,** the effective date of the funding structure change begins in federal fiscal
8 year 2028, which commences on October 1, 2027. The electronic system required by this
9 legislation is expected to assist the Department of Health and Human Services in reducing
10 the error rate to a level that minimizes the State's share of the costs of program benefits by
11 the effective date of the federal funding structure change; and

12 **Whereas,** in the judgment of the Legislature, these facts create an emergency within
13 the meaning of the Constitution of Maine and require the following legislation as
14 immediately necessary for the preservation of the public peace, health and safety; now,
15 therefore,

16 **Be it enacted by the People of the State of Maine as follows:**

17 **Sec. 1. 22 MRSA §3104, sub-§5,** as enacted by PL 1979, c. 386, is amended by
18 enacting at the end a new last blocked paragraph to read:

19 The department shall establish a grant program to provide grants to community-based
20 organizations that have entered into contracts with the department to provide SNAP
21 outreach activities. The department may award a community-based organization a grant
22 under the grant program to provide matching funds for federal funding for approved SNAP
23 outreach activities and to hire a SNAP outreach community coordinator to improve
24 communications with SNAP recipients.

25 **Sec. 2. 22 MRSA §3104, sub-§18** is enacted to read:

26 **18. Error rate reduction system.** The department shall operate an electronic system
27 to detect and correct erroneous eligibility determinations for food allotments using
28 advanced mathematical methods, with a goal of reducing the error rate calculated by the
29 United States Department of Agriculture to a level that minimizes the State's share of the
30 costs of SNAP benefits. The electronic system must be capable of identifying root causes
31 of erroneous eligibility determinations and operate independently of another system or
32 systems used by the department to process and record eligibility determinations. The
33 electronic system must operate in conformity with regulations and error rate standards
34 promulgated by the United States Department of Agriculture.

35 **Sec. 3. 22 MRSA §3104, sub-§19** is enacted to read:

36 **19. Contingency fund.** The department shall establish and maintain a contingency
37 fund, referred to in this subsection as "the fund," as a nonlapsing fund to provide SNAP
38 benefits to recipients of SNAP benefits in the event the Federal Government fails to provide
39 funding for SNAP benefits to the State. The department, in its sole discretion, shall use
40 money from the fund for the purposes of this subsection in accordance with rules adopted
41 by the department. All money appropriated by the State for the purposes of the fund must
42 be deposited into the fund. The balance in the fund may not exceed \$87,000,000. Rules

adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.
