# Sixty-Ninth Legislature.

HOUSE. No. 367

## STATE OF MAINE.

The special committee appointed to ascertain how many reports of the several departments are printed each year and the cost of the same and to recommend to the legislature how many it is desirable to have printed, beg leave to report.

Chapter 173 of the laws of 1895 prescribes the maximum numbers of various department reports to be printed at the expense of the State, but gives to the governor and council discretionary power to reduce the number. It authorizes the State librarian to sell at cost to parties not entitled to said reports by custom or courtesy such copies as may from time to time remain in his hands. All other reports not enumerated in the first section of the act can be printed and bound and distributed only by authority of the governor and council. Section three, however, appears to give to departments, bureau and institutions authority to print circulars and bulletins at the discretion of the officers in charge. In 1897 an act was passed making the printing and binding of twelve thousand copies of the report of the secretary of the board of agriculture compulsory, with this exception the law remains unchanged from 1895 and the determination of the number of copies of all reports to be printed remains in the hands of the governor and council.

The following statement has been furnished the committee and is furnished for the information of the legislature.

Reports.	Number.	Printing.	Binding.	Total.
Board of Agriculture	12,000	\$3,901 62	\$3,833 00	\$7,734 6

The committee recommends that the report of the secretary of the board of agriculture should be reduced in the number of pages and a smaller edition published.

That the report of the bureau of industrial and labor statistics should be restricted to matters strictly pertaining to that department and only such number bound in cloth as are required for purposes of exchange.

That the reports of the trustee, president and treasurer of the University of Maine should be confined to the necessary details of operations and accounts, that the catalogue, list of alumni, etc., should be printed at the expense of the University, which is amply provided with funds by the liberality of the State, that the report of the experimental station should be distributed as at present, and that their republication in the annual report of the secretary of the board of agriculture should be omitted.

That the report of the bureau of vital statistics, so called, should be incorporated with the report of the board of health.

As these propositions cannot be carried into effect without the amendments of several acts now in force, the committee ask that this report may be printed for the information of the legislature and referred to the next legislature.

Per order,

Brown, for Committee.

### STATE OF MAINE.

House of Representatives, Augusta, March 16, 1899.

Tabled, pending acceptance of report by Mr. BROWN of Falmouth, and ordered printed.

W. S. COTTON, Clerk.
