SEVENTY-FOURTH LEGISLATURE

HOUSE.

No. 171

STATE OF MAINE.

IN THE YEAR OF OUR LORD ONE THOUSAND NINE
HUNDRED AND NINE.

AN ACT relating to the taxation of railroads.

Be it enacted by the People of the State of Maine, as follows:

Section 1. Section 30 of Chapter 8 of the Revised Statutes is hereby repealed.

The following table shows the results of the experiment. The first column is the number of trials, the second column is the number of correct responses, and the third column is the percentage of correct responses.

| Number of trials | Number of correct responses | Percentage of correct responses |
|------------------|-----------------------------|---------------------------------|
| 10 | 7 | 70% |
| 20 | 14 | 70% |
| 30 | 21 | 70% |
| 40 | 28 | 70% |
| 50 | 35 | 70% |
| 60 | 42 | 70% |
| 70 | 49 | 70% |
| 80 | 56 | 70% |
| 90 | 63 | 70% |
| 100 | 70 | 70% |

CONCLUSION

The results of the experiment show that the percentage of correct responses is constant at 70% for all numbers of trials. This suggests that the subject is performing at a constant level of accuracy, regardless of the number of trials. This is a positive result, as it indicates that the subject is able to maintain a consistent level of performance over time.
