### STATEMENT OF FACTS.

The usual appropriation for the State School for Boys for current expenses is \$26,000. In addition to this the statute provides that the State shall pay to the school one dollar per week for the subsistence and clothing of boys; and with an average population of 150 boys (which is less than the average during the past few months), this amount would be \$7,800; or a total cost to the State of \$33,800.00. The number of boys is increasing, but it is believed that \$33,000, as called for in the accompanying resolve will be sufficient for the current expenses during the year 1909.

The rest of the items in the resolve are self-explanatory.
