ESTIMATED INCOME.

Estimated income from articles sold and board of	
paying patients	\$1,500 00
Estimated income from farm products.....	12,000 00

\$13,500 00

(We have now at the school 228 children, and have accepted 32 more, which number we expect will be here by February 1st. When our hospital is completed, we shall accept 15 more, making a total of 275 children at the school.

I also wish to call your attention to the fact that on account of the small appropriation two years ago, nothing has been bought during the past two years except absolute necessities; consequently, at the present time a large per cent of the bedding, table linen, dishes, and kitchen utensils is worn out and will have to be replaced within a few months. Part of our laundry equipment is practically worn out and inadequate for our present needs. We also need about 10 more cows to furnish a sufficient quantity of milk for our present number of children.)
