STATEMENT OF FACTS

The Eastern Maine General Hospital is an incorporated hospital located in the city of Bangor. It provides hospital treatment not only for persons who are able to pay for it but also for persons who are able to pay for none or for only a small part of the cost of their care. It has annually for a number of years received payments from the state for the care of some of those who have been unable to pay for their own treatment. The sums above specified are the amounts which are estimated as necessary to enable the hospital to continue its charitable service during the next two years.
