8 recommendation of the trustees of said institution, authorize  
9 the transfer of the unexpended balance of any of the above  
10 appropriations to any other appropriation for said insti-  
11 tution.

## STATEMENT OF FACTS

The absolute need of an X-ray machine and high pressure boiler with sterilizer and the finishing of the basement in one wing of the institution, together with the fact that both buildings must be painted, make it necessary that the institution be given the amount originally asked for at the hearing before the budget committee.
