	\$555,123 53	\$529,527 19
Buildings		
Dairy and Creamery	\$60,000 00	\$55,000 00
Request for such a building was previously made to the Legisla- ture and an appropriation grant- ed but due to the war, this mon- ey was not used, but turned back to the State.		

Greenhouse and Headhouse ————— 27,000 00

These buildings are needs of the department of Horticulture for laboratories and classroom work. We have now, one section of greenhouse built in summer of 1923, to replace in part the old greenhouse, part of which can still be used in warm weather.

Two Girls' Dormitories 50,000 00 75,000 00

Our facilities for taking women students is limited to the capacity of the present dormitories, and during the past two years we have had to refuse admission to women on account of dormitory space.

Engineering Building ————— 85,000 00

This request is for funds to match the bequest of Oliver W. Crosby in order to construct a mechanical engineering laboratory.

Arts Building Addition ————— 60,000 00

This amount is to supplement the appropriation received from the 81st Legislature amounting to \$170,000. The original request was for \$220,000 for this building, and the increase over the difference indicated is due to duplicated construction effort.

Infirmary 30,000 00 _____

The need of a building of this type is apparent to anyone who has been on the campus and observed the very inadequate quarters available at present—a frame, barnlike old building.
