STATEMENT OF FACTS

In nineteen hundred and ten a highway was started from Jackman and the intentions was to build a highway eventually to Kineo, some ten miles was built and the towns and plantations in the district was taxed for the construction of this highway, but the war conditions came on and the matter was dropped, the highway now is constructed about one-half mile below Long Pond. In nineteen hundred twenty-seven legislature an appropriation was made for fifty thousand dollars and this money was expended on the Greenville end of the highway.

This highway when eventually constructed will be a great benefit to the eastern part of Maine and will no doubt boom the Moosehead Lake area.
