RESOLVE, in Favor of the Northern Maine Sanatorium to  
Provide Adequate Water Supply.

---

EMERGENCY PREAMBLE. Whereas at the present time the system of water supply for the Northern Maine Sanatorium is not adequate to take care of the demands for the patients and help, and whereas there are not funds available to provide such water supply and the health of the patients and employees is at the present time greatly endangered, and whereas the aforesaid facts seem to this legislature to constitute an emergency whereby the public peace, health and safety are endangered and emergency legislation is necessary to protect the welfare and credit of the state and conserve the various activities relating to the public peace, health and safety which are thereby involved, now therefore be it

Resolved: That there be, and hereby is appropriated for the Northern Maine Sanatorium the sum of two thousand five hundred dollars for the purpose of providing an adequate water supply for the Northern Maine Sanatorium.

EMERGENCY CLAUSE. In view of the emergency cited in the preamble, this resolve shall take effect when approved.

## STATEMENT OF FACTS

At the present time there is only one well at the Northern Maine Sanatorium for the purpose of providing drinking water for the patients and employees, and this water supply is not sufficient to take care of the demands. This resolve is made for the purpose of providing such additional water supply as may be necessary to protect the health of the patients and employees.
