STATE OF MAINE

IN THE YEAR OF OUR LORD NINETEEN HUNDRED
FIFTY-ONE

**RESOLVE, Appropriating Moneys for Replacement and Conversion of
Certain Elevators at the Bangor State Hospital.**

Replacement and conversion of certain elevators at the Bangor state hospital. Resolved: That the sum of \$30,000 be, and hereby is, appropriated from the general fund of the state to the Bangor state hospital for the replacement and conversion of certain elevators; and be it further

Resolved: That such moneys shall not lapse but shall remain a continuing carrying account until the purpose of this resolve has been accomplished.

STATEMENT OF FACTS

There is a project in process at the Bangor state hospital whereby the electrical equipment is being converted from direct to alternating current.

As the result of an engineering survey of the elevators it is found the cost of repairs and conversion of the elevators in the store and H. building would approximate the cost of replacement. It is estimated an appropriation of \$30,000 will provide sufficient funds to replace these two elevators, convert the elevators in central dining room and B and D to alternating current and provide automatic locks and safety devices made necessary to meet the requirements of the elevator code.
