**RESOLVE, in Favor of Addition to Chemical Engineering Building at  
University of Maine.**

---

**Chemical Engineering Building; appropriation for. Resolved:** That there be, and hereby is, appropriated from the unappropriated surplus of the general fund the sum of \$370,000 in favor of the University of Maine to construct and equip an addition to the chemical engineering building (Aubert Hall); and be it further

**Resolved:** That this appropriation shall not lapse but shall remain a continuing carrying account until the purposes of this resolve have been completed.

### STATEMENT OF FACTS

These wings were included in the original plans of a Chemical Engineering Building, the central portion of which was constructed in 1940. They are now urgently needed to provide more space for undergraduate instruction in chemistry and chemical engineering, and particularly to provide for adequate facilities for teaching and research in pulp and paper technology. With these additions to the Chemical Engineering Building, the University can maintain its recognized high standing in the pulp and paper field and continue effectively to serve Maine's largest industry.
