STATEMENT OF FACTS

Washington State Teachers' College does not have tennis courts, baseball fields, women's recreation area, or any developed outdoor areas to carry on the physical education program needed for college students and prospective teachers. It is planned to develop land owned by, and to be acquired by, the State for tennis courts, women's hockey field, and a baseball field; including necessary drainage, grading, landscaping, walks, and equipment. This project has been approved by the State Board of Education as part of the plan for improving and enlarging facilities at Washington State Teachers' College.
