**RESOLVE, Appropriating Moneys for Spruce Budworm Control.**

---

**Emergency preamble.** Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment; and

Whereas, a severe outbreak of spruce budworm has developed in the forests of northern Maine, threatening the destruction of one of Maine's outstanding natural resources; and

Whereas, the following legislation is vitally necessary to control this outbreak so as to save more than 300,000 acres of Maine forest; and

Whereas, in the judgment of the Legislature these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore, be it

**Spruce budworm control. Resolved:** That there be, and hereby is, appropriated \$112,500 from the unappropriated surplus of the general fund to be expended by the Forest Commissioner or his agents for spruce budworm control as the State's share of its responsibility in the 1958 control program, with the rest of the funds for the program supplied by landowners and the Federal Government; and any unexpended balances shall not lapse but shall remain a continuing carrying account until June 30, 1959.

**Emergency clause.** In view of the emergency cited in the preamble, this resolve shall take effect when approved.

### STATEMENT OF FACTS

A severe outbreak of the spruce budworm has developed in northern Maine and should be controlled in the spring of 1958. About 300,000 acres are heavily infested. Control measures are estimated at the rate of \$1 per acre.

At a meeting of state, federal and private owner representatives, assurances were received that 25% of the costs plus technical assistance in the program would be met by the Federal Government, 37½% from the State and 37½% from the landowners in unorganized territory.
