RESOLVES.

JANUARY SESSION, 1825.

CHAPTER I.

Resolve relating to the allowance of the Massachusetts Claims now pending before the Congress of the United States.

Resolved, That the Senators in Congress from this State, be instructed, and the Representatives requested, to adopt all suitable and proper measures, at the present session, to obtain the allowance of the Massachusetts Claims now pending before Congress; that the justice of the claims being admitted by the President of the United States in his message, and by the committee of Congress in their Report, it is due to the parties in interest, that these claims be now adjusted; and, from the enlightened liberality of our National Legislature, we have the fullest confidence that they will be brought to a speedy and equitable decision. *Resolved*, That the Governor be, and he is hereby requested, to transmit copies of the foregoing Resolution to each of our Senators and Representatives in Congress, with a request that they would communicate the same to the Senate and House of Representatives of the United States, in such manner as they may deem expedient.

[*This Resolve passed January 10, 1825.*]

MESSAGE OF THE GOVERNOR.

To the Senate and House of Representatives :

In consequence of the inconveniences resulting from the situation and extent of the second Division of the Militia of this State, the Council have unanimously advised to the formation of a new Division, to be denominated the eighth Division. An order has thereupon been issued for carrying this arrangement into effect.

I lay before the Legislature a copy of the proceedings, to the end that the office of Major-General of said new Division may be filled agreeably to the provisions of the Constitution.

MESSAGE OF THE GOVERNOR.

To the Senate and House of Representatives :

I lay before the Legislature a communication received from the Directors of the American Asylum for the education of the Deaf and Dumb, established at Hartford, in the State of Connecticut. The Directors suggest a wish that some plan may be digested and adopted, whereby the Deaf and Dumb of the neighbouring States may be educated at that Institution, on such principles that each may have a due share in the enjoyment of the funds granted by Congress for the instruction of this unfortunate class of the community. They further intimate a willingness that each State, making application, should have the same benefit from the national grant, as though the Asylum were located within its own territory. Accompanying this communication, are several copies of the last annual report of the Directors, from which information may be derived of the character and present state of that Institution.

STATE OF MAINE.

IN SENATE, January 11, 1825.

The Committee, to whom was referred the Governor's Message respecting the Deaf and Dumb, having considered the same, examined the accompanying document, and availed themselves of such further evidence as has been furnished to them, ask leave to report in part :

That great advantages are manifest in the instruction of a considerable number of pupils at the same school ; that the proposals made in behalf of the Asylum at Hartford, to educate there the Deaf and Dumb of the neighbouring States, appear just and liberal ; and to your Committee it seems worth the consideration

of the Legislature, to ascertain whether the advantages tendered, if placed on secure footing, will not be more effectual than any provision which can be made at an equal, or even greater expense, within the State.

Two Commissioners have been appointed from each of the States of Massachusetts, New Hampshire and Vermont, to meet and confer on the subject, in behalf of their several States; and for the purpose of obtaining and laying before the Legislature the proper and requisite information, your Committee are of opinion, that the appointment of a like number, on their part, one by the Senate and one by the House of Representatives, would at this time be expedient; for which purpose a resolve is herewith respectfully submitted. By order,

JOSIAH STEBBINS.

CHAPTER II.

Resolve providing for the appointment of Commissioners to confer with the Directors of the American Asylum, and Commissioners of other States, respecting the education of the Deaf and Dumb.

Resolved, That two Commissioners be appointed by the Governor, with advice of Council, to confer with the Directors of the American Asylum, at Hartford, and also with such Commissioners appointed by other States as may meet for the purpose, on the subject of making provision for the education of the Deaf and Dumb at the Asylum; and to ascertain what accommodations, instructions and employments are provided at that Institution; at what ages pupils may be admitted; and whether equal terms and privileges may be there allowed and secured for the indigent Deaf and Dumb of this State; to report at the present session of the Legislature.

[*This Resolve passed January 13, 1825.*]

CHAPTER III.

Resolve for purchasing Greenleaf's Reports.

Resolved, That the Secretary of State, be, and he is hereby authorized to purchase three hundred and twenty-five copies of the second volume of Greenleaf's Reports of the decisions of the

Supreme Judicial Court of the State of Maine, and to distribute one copy thereof to each town and organized plantation within the State; one copy to each of the Judges of the Supreme Judicial Court, Court of Common Pleas, and of Probate; one copy to the Attorney General, and one copy to each Clerk of the Courts, in the several counties in this State, for the use of their respective counties: *Provided* said Reports can be obtained for a sum not exceeding two dollars and twenty five cents per volume. And the sum of seven hundred and thirty one dollars and twenty five cents is hereby appropriated for that purpose; and the Governor, upon satisfactory evidence being exhibited to him that said Reports have been deposited in the Secretary's office, for the use of the State, is hereby authorized and requested, with advice of Council, to draw his warrant on the Treasury accordingly.

[*This Resolve passed January 13, 1825.*]

MESSAGE OF THE GOVERNOR.

To the Senate and House of Representatives:

The Governor of Georgia having requested that the enclosed Resolution of the Legislature of that State may be made known to the Legislature of Maine, I communicate the same to the two branches for their information.

Lowney: *Resolved*, for reasons set forth in said Lowney's petition, That the Justices of the said Court of Common Pleas, be, and they are hereby authorized to admit said Lowney to practice law as an Attorney therein, he paying the duty required by law, and continuing his study of the law for the term of ten months from the first day of January, 1825, in the office of a Counsellor at Law in this State.

And be it further resolved, That the Supreme Judicial Court, he, and they are hereby authorized to admit the said Lowney to practice as an Attorney in said Court, whenever he shall have practiced in the said Court of Common Pleas for the term of two years: *Provided*, he shall comply with the requisitions of law, and the rules of the Supreme Judicial Court in other respects. [This Resolve passed January 15, 1825.]

STATE OF MAINE.

IN SENATE, January 18, 1825.

The Committee on Public Lands, to whom was referred so much of the Governor's Message as relates to depredations committed upon the public lands, have had the same under consideration, and REPORT :

That from the documents accompanying the message, and other sources of information, it is evident that very great quantities of timber upon lands belonging to this State, and the Commonwealth of Massachusetts, and also upon lands granted by that Commonwealth, near the line heretofore recognized as the dividing line between the United States and the British Province of New Brunswick, have been cut and carried down the river St. Johns by British subjects, and thence transported to Great Britain.

The principal scene of these depredations is upon the Aroostook and Madaweska, many miles within the territory and jurisdiction of this State, and far West of the line settled by the Treaty of 1783, as claimed by the Government of the United States. These depredations are still continued upon a large scale, and the value of the timber annually taken from our territory is so great as to render it the duty of the Government to adopt some efficient measures to obtain satisfaction for the past, and to prevent further destruction of its property. But what is more interesting to this State and to the United States, than the value of the timber, is, the adjustment and settlement of the boundary line between this State and the Province of New Brunswick, which is the appropriate business of the National Government to effect.

The Committee are well satisfied, although they have not legal evidence of the fact, that the persons who have taken the timber, and who are now employed in cutting it within the line as claimed by this State and the United States are furnished with

permits and licenses from the Government of the Province of New Brunswick ; that it is the policy of that government, availing itself of the controversy respecting our North Eastern boundary, to strengthen their claim to the disputed territory, by allowing the timber thereon to be cut under its authority, and by placing settlers upon portions of it, to whom that government proffer very liberal encouragement.

When it is considered that should the pretensions of the British Government in regard to our North Eastern boundary be acceded to, this State will lose a quarter or a third of its territory and jurisdiction, and all participation in the waters of the St. Johns and its important branches, it behoves this State, as well as the Commonwealth of Massachusetts, to adopt the most efficient measures to prevent further encroachments upon this territory, and to urge upon the National Government the necessity and importance of bringing to a speedy and favorable termination, the negotiation on this interesting subject, which has been so long protracted.

The territory upon which most of the depredations have been and are committing, is situate from 60 to 100 miles from any settlements by our citizens and where legal process cannot be expected to produce much effect either to obtain satisfaction for the past, or to deter the depredators from pursuing a business which proves profitable to them and satisfactory to their employers.

To authorize the employment of a military force to expel the depredators from our territory would be unavailing, unless it be continued to prevent their return to the work of destruction.—The expense of adopting and carrying into effect such a measure, would not only be very great, but might involve the National Government, and our citizens near the line, in serious difficulties, and it is questionable whether it ought to be adopted without the concurrence of Massachusetts, and until the result of the pending negociation shall be known.

With these views of this important and highly interesting subject, your Committee respectfully submit the accompanying Resolve.

JONAS PARLIN, Jr. *Chairman.*

CHAPTER V.

Resolve respecting depredations on the Public Lands.

Resolved, That the Governor be authorized and requested to correspond with the Governor of the Province of New Brunswick, relative to the depredations which have been committed by

British subjects upon the timber on the Public Lands of this State, west of the boundary line between this State and the Province of New Brunswick, as heretofore recognized; and to ascertain whether that Government have authorized any persons to cut timber upon these lands, or to settle thereon.

Be it further Resolved, That the Land Agent for this State be instructed, in conjunction with such person as may be designated on the part of the Commonwealth of Massachusetts, in case such person should be designated, and if no person shall be so designated, then without such conjunction, forthwith to take effectual measures to ascertain the extent of the depredations committed on the lands belonging to this State and the Commonwealth of Massachusetts, or on the lands belonging to this State; by whom the same have been committed, and under what authority, if any, such depredations have been committed; and all other facts necessary to bring the offenders to justice.

Be it further Resolved, That the Attorney General of this State, in conjunction with such person or persons as may be authorized on the part of the Commonwealth of Massachusetts, be instructed forthwith to commence any actions or prosecutions, against any persons found trespassing on the lands jointly owned by this State and the Commonwealth of Massachusetts, that all such persons may be brought to justice, as speedily as may be; the expenses of which prosecutions, the Legislature of Massachusetts concurring, to be borne equally by this State and the said Commonwealth of Massachusetts.

Be it further Resolved, That the Governor be requested to communicate to the Governor of the Commonwealth of Massachusetts all the information he now has, or may obtain, relative to depredations upon the public lands in this State, with a copy of this Resolve, and to request the co-operation of Massachusetts in such measures as will protect the property of both States, and bring to a speedy issue the pending negotiation relative to the North-Eastern boundary of the United States.

Be it further Resolved, That the Governor be requested to forward to each of the Senators and Representatives in Congress from this State, a copy of the Report of the Committee on that part of the Governor's Message relative to depredations on the public lands, and of these Resolves, with such of the accompanying documents as he may think proper, and request them to take the necessary measures to obtain an early adjustment of our North-Eastern boundary.

And be it further Resolved, That the Supreme Judicial Court be, and they are hereby, authorized to admit the said Clarke to practice as an Attorney in said Court, whenever he shall have practised in the said Court of Common Pleas for the term of two years : *Provided*, he shall comply with the requisitions of law, and the rules of said Supreme Judicial Court, in other respects.

STATE OF MAINE.

JANUARY 21, 1825.

The Joint Committee of both Houses of the Legislature, to whom was referred so much of the Governor's Message as relates to the testifying to General Lafayette the high estimation in which he is held by the people of this State ; and also, the expediency of authorizing the Governor to extend to him an invitation to visit the same, have had the subjects under consideration, and now respectfully

REPORT :

That, with no ordinary sensations of pleasure and gratitude, the Legislature of the State of Maine have heard announced the arrival of General Lafayette in the United States of America. If the most exalted private worth and virtue have proportionate

claims to respect and veneration, the truly illustrious individual, whose visit to this free and happy country has been officially announced to this Legislature, must excite these emotions, in a pre-eminent degree, in the breasts of all who have had opportunity to become acquainted with his character.

When, to all the virtues which can ennoble the private individual, we behold united a constant, uniform, rational and ardent love of liberty, shall it be said that the free and independent citizens of the United States can express too strong an admiration of the man in whose character they are so happily and strongly blended, that all the blandishments and fascinations of a Court could not tarnish, nor all the persecutions of anarchy obliterate them.

Such is the character of Lafayette. Virtuous and unsophisticated, we see him, in the dawn of manhood, unseduced by the allurements of a refined, but despotic Court, and rising superior to the prejudices, which for ages had chained the mind to the machinery of regal power, come and devote on the altar of liberty a splendid fortune, a vigorous intellect, and a willing and heroic heart.

At this period of his life, witnessing in his actions, all that was fabled of the heroic ages, it might have been supposed that he was actuated by the spirit of chivalry, had not the whole of his after life afforded unequivocal testimony that love of liberty was in him a deep rooted principle, and not the impulse of romantic feeling—a principle, which prosperity could not strengthen, nor adversity unsettle. Unappalled by the danger which threatened, and unsubdued by the gloom which enshrouded the cause he had espoused, at the side of the immortal Washington and his other illustrious compatriots, he steadily pressed forward to the accomplishment of his object, nor rested till a permanent independence had been acquired for the country of his adoption.

Following his *glorious*, because *virtuous* career, we behold him now attempting in his native country to restrain arbitrary power, and introduce the principles of rational liberty, and the blessings of a free Constitution. And when Anarchy, like a mighty torrent, breaking over all barriers, swept before it every vestige of law and order and Freedom, Lafayette, true to his principles, is seen opposing himself, though unavailingly, to its resistless course, and baring his breast to the tremendous shock.

Do we behold him at the head of armies? It is as the champion of order, of free government, of rational liberty. Do we listen to his voice in the Senate? It is raised in the same noble cause, and for the same magnanimous purpose. Is he incarcerated within the walls of a dungeon? It is as the victim of tyr-

anny. Oppression, in all its Protean forms, trembled when Lafayette was free; and only felt at ease, when assured that his manly limbs were loaded with the chains of slavery. His spirit, tyranny could not fetter. His soul, oppression could not subdue.

But, in contemplating the character of our Nation's distinguished Guest, there is a fact of which this Legislature can never lose sight. If it be asked, where is that nation whose freedom his efforts contributed so largely to achieve? Will not every heart within these walls most joyfully and gratefully respond, that Nation is the United States of America? And who can say, that without his wealth, which he so cheerfully devoted, his influence, which he so unremittingly and perseveringly exerted, and his blood, which he so freely and lavishly shed, we should now be legislating in this Assembly calmly and unrestrained, to promote the interests of a free, happy and sovereign State?

To the bosom of this highly favored nation—a people, who, for almost half a century have enjoyed the rich blessings of independence, unexampled happiness and prosperity, has a gracious Providence directed the steps of the great, the virtuous Lafayette—the unwavering friend of the rights and liberties of man—the last surviving general officer of our glorious revolution. He comes, indeed, bowed down by age and persecution; but he comes with a heart still glowing with the love of rational liberty. He comes to witness the full fruition of his earliest and constant hopes; and we rejoice to add, to share the justice and munificence of a free, great, and magnanimous people.

Your Committee would therefore respectfully submit the following Resolutions.

 MESSAGE OF THE GOVERNOR.

To the Senate and House of Representatives :

I transmit for the information of the two branches of the Legislature, a Report this day received from the Commissioners appointed under the Resolve of the 13th ult. "to confer with the Directors of the American Asylum, and Commissioners of other States, respecting the education of the deaf and dumb."

ALBION K. PARRIS.

COUNCIL CHAMBER, }
FEBRUARY 3, 1825. }

To the Honorable the Senate, and the Honorable the House of Representatives of the State of Maine:

WE, the undersigned, having been appointed, pursuant to a Resolve of the Legislature of the 13th January instant, Commissioners to confer with the Directors of the American Asylum at Hartford, and Commissioners of other States, on the subject of making provision for the education of the Deaf and Dumb at the Asylum, respectfully REPORT:

That on accepting our appointment, we immediately repaired to the City of Hartford, in the State of Connecticut, for the purposes expressed in said resolve. Pursuant to a previous arrangement, the Commissioners assembled on the 25th instant, consisting of the Hon. James Fowler and Hon. John Mills, from Massachusetts; the Rev. Jonathan Nye and Salina Hale, Esq. from New Hampshire; Horace Everett, Esq. from Vermont, and the undersigned from Maine. We were there met by a Committee of the Directors of the Asylum, who invited us to a conference on the interesting subjects connected with our mission. Our object, and that of the other Commissioners, was to obtain all useful information relating to the Institution; its funds, its government, the modes of instruction and employment adopted, the requisite term of instruction at the Asylum, and the conditions on which education could be obtained; and in fine, information on every particular which would throw light on the subject, and present to the Legislature the true character of the Institution, and the nature of the advantages to be there enjoyed by that unfortunate class of persons for whose benefit it was established. This information was to be obtained from two sources: 1st, Documentary statements and accounts of the officers of the Asylum. 2d. Our own *personal observation*, as to the mode of instruction and employment, accompanied with the necessary explanations of the Instructors, as to the progress of improvement, and numerous incidental circumstances.

It was early ascertained that the appointment of Commissioners by the several States was a source of satisfaction to the Directors, and when made known to the pupils excited among them a most lively and grateful sense of the kind attention paid to them, and the warm interest so extensively felt for their peculiar privations and misfortunes.

With these views on the part of the Commissioners, and with a most liberal disposition on the part of the Directors, we entered into a particular examination of facts, the result of which we now proceed to state to the Legislature.

The Institution was founded and the business of instruction commenced, in the year 1817. In aid of the establishment

twenty-two thousand seven hundred and sixty-seven dollars and eighty-three cents were raised by donations from individuals; and a further sum of two thousand seven hundred and thirty-seven dollars and fifty-three cents, by contributions in various churches in Connecticut. In March, 1819, a grant was made by Congress to the Asylum, then bearing the name of the Connecticut Asylum, of a tract of land to contain thirty-six sections, equal to twenty-three thousand and forty acres, which was afterwards located by an agent, in five different places in the State of Alabama, in a manner highly advantageous to the interests of the Institution.

The funds of the Institution have been principally derived from these lands, and from the accounts and statements submitted to us, appear now to consist of the following particulars, viz.

Lands unsold, 7,850 acres, estimated to be worth, at this time, four dollars per acre,	31,436 00
Furniture of the Asylum, as lately appraised,	2,002 00
Real estate in Hartford, occupied by the Asylum,	34,985 06
Bank Stock and Bonds considered perfectly safe and good,	85,423 87
Bonds secured by mortgage, nominal amount	82,116 46
Of which there will probably be a loss of	20,000 00
Leaving	62,116 46
Making the whole amount,	215,963 39

The present actual income from the above funds, is estimated to be five thousand two hundred dollars—derived from the bank stock and bonds considered safe, and bonds secured by mortgage. Of the latter, a portion does not bear interest, and another portion cannot be collected, but the amount thus situated cannot now be precisely ascertained, the bonds being in the hands of an Agent in Alabama. The furniture and the real estate in Hartford, amounting to thirty six thousand nine hundred and eighty seven dollars and six cents, being necessarily occupied by the Asylum, will never be a source of income. But it is presumed that the unsold lands will be disposed of, and the bonds and mortgages be converted into money, by payment or re-sale of the lands, and that the productive funds will, at a time not far distant, amount to about one hundred and seventy five thousand dollars—allowing something to be expended for additional furniture and real estate in Hartford, for the accommodation of an increased number of pupils. The present number of pupils is sixty five, and the average number for the last three years has been sixty four.

During the last three years, the annual average receipts for boarding, tuition, &c. of pupils has amounted to	7,586 16
And during said term the annual average expenditure for the support of the institution, has been	11,946 13
And during said term the price of tuition, bedding, washing and all kinds of expense, except for clothing and medical assistance has been annually for each pupil,	150 00
The salaries of the officers of the Asylum are established as follows, viz.	
Salary of Mr. Gallaudet, the Principal,	1,200 00
“ Mr. Clerc,	1,200 00
“ Mr. Turner,	1,000 00
“ Mr. Peet,	800 00
“ Mr. Brinsmade,	700 00
“ Overseer of shops,	400 00
“ Chairman of Directing Committee,	200 00
“ Commissioner of Funds,	50 00

The price of boarding is per week, \$1 75, which it is said would not be varied by the increase or diminution of the number of pupils. We were furnished by the Treasurer with a statement of the receipts and expenditures on account of the Asylum from its foundation in 1817, to January 1st 1825, which is herewith submitted.

Having thus presented to the view of the Legislature, a brief statement respecting the origin of the Institution, and of its funds; of the manner in which they have been managed, and their amount at the present time, both productive and unproductive; and also a view of the expenses of the Institution for the last three years; we now proceed to observe that at the request of the committee, the Commissioners repaired to the Asylum to view and examine the accommodations which have been provided. The building is spacious and airy—placed on an elevated and healthy situation, with a large dwelling house near it, which will furnish additional accommodations for the pupils when wanted, equally convenient with those in the main building. And from information, on which we can rely, we are satisfied that both buildings would easily accommodate one hundred and thirty pupils. There are also brick workshops in the rear of the main building, sufficient for the pupils when pursuing their mechanical employments, and several apartments for the purpose of bathing.

We were conducted in succession through the school rooms of the five instructors, and witnessed the mode of instruction, and the progressive improvement of the pupils, according to which

they are generally classed, and placed under different instructors. In each room we witnessed the most watchful attention of the pupils to the studies before them, and were extremely gratified to see the promptitude with which they receive ideas from the instructor, and communicate their own in writing. They all seemed eager to learn what the Preceptor was desirous to teach. In each class we saw nothing but contentment and cheerfulness ; perfect regularity and respectful deportment.

After witnessing these delightful scenes for some hours, the Committee and the Commissioners dined in company with the instructors and all the pupils in one common hall. Here we saw the same order and good conduct, and were presented with a dinner, plain, good, and neatly prepared, precisely such as would have been provided for them if no company had dined at the Asylum. This course was pursued for the express purpose of enabling us to form correct conclusions, as to this branch in the management of the Institution.

From the table, the male pupils retired to the several workshops, and were immediately employed in the trades they were respectively learning. Some were engaged in cabinet work ; some in carpenters and joiners work ; some in coopering ; some in shoe making ; some in making chairs, and some in making various articles in cutlery. The specimens of work exhibited to us indicated much ingenuity and advancement in the particular branch pursued. The articles thus made, are disposed of for the benefit of the Institution ; but it is well ascertained that the product of the labour is not sufficient to defray the incidental expenses in pursuing it ; still it is regularly pursued for five hours each day, (with certain intervals,) and it forms not only a healthy exercise, but a very useful part of education ; qualifying them, when they go into the world, to gain a livelihood by their ingenuity and industry. While the male pupils were thus employed, the females, when they retired from table, repaired to their sitting room, and we saw them, under the superintendance of a Matron, occupied in needle work of various kinds, both useful and ornamental. In the intervals allowed for relaxation, both males and females have their own healthy and amusing exercises ; but they are never together except in the school rooms and dining hall. Near the close of the day we were invited by the Principal to his room, and there found all the pupils assembled to attend the devotions of the evening. He wrote a text on a slate in full view of them ; and then by signs explained it, and urged on them the performance of the duties it inculcated. He then by signs addressed the throne of Grace, and continued in prayer for some minutes ; during which all were fixed in profound attention and seriousness. In this manner we closed the day.

At present there are five instructors, including the Principal ; but it is evident that as the number of pupils shall increase, an additional number of Instructors will be required. It is admitted that *six* could instruct an *hundred*. There are now in the Asylum sixty-five pupils, and one hundred and twenty-eight have been admitted since its establishment. Not more than *twenty-eight* of that number, have been able through their parents, guardians or friends, to defray the expenses of their education ; the States to which they belong having defrayed them. By the rules of the Institution, pupils are not admissible under *ten years* of age, nor after *thirty years* of age. But notwithstanding the limits above mentioned, it is the decided opinion of the Principal, and others most capable of judging, that it can seldom, if ever, be advisable to send a pupil for instruction under fourteen years of age ; although *peculiar circumstances* may form an exception.

There are two vacations in each year ; one of four weeks in the Spring : and one of four weeks in the Fall. But the sum annually paid at the Asylum is not affected by these vacations ; it is not *increased* by the residence of the pupil there during the *vacation*, nor *lessened* by his absences during *term time*.

It is the opinion of the Principal, and one which seems to be well founded, that a pupil must reside at the Asylum *at least* four years, to render his education of any essential service to him as a mechanic, or in the articles of reading and writing ; and in a religious and moral point of view ; and that a residence and continued instruction there, for one or two years more, would amply repay the additional expense. The objections which have often been made to so long a term, seem not to be supported by good and solid reasons. For although a student completes his course of study at a College in four years, yet it should be remembered that he has, for years before his admission, been receiving those instructions necessary to qualify him for such admission ; has been the object of constant care and attention, and blessed with a thousand facilities for acquiring knowledge and enriching his mind, which are denied to the poor unfortunate deaf and dumb pupil. He enters the Asylum in perfect ignorance ; his mind is a blank ; he has every thing to learn, and the avenues to learning are *few* and *narrow*, and are only gradually discernable by the glimmerings of mental twilight.—This striking difference between the two cases should never be forgotten. It may be proper also in this place to remark, that although the salaries of the Instructors may appear to be higher than necessary, yet the fact seems clearly to be otherwise ; there is in this particular, also, a striking difference between the Instructors in the Asylum and those of a similar grade in our Colleges. For

the *latter* situation, a good scholar, learned in the branch he is employed to teach, is sufficiently qualified; but for the *former* situation the instructor must be *specialy* educated, at no small expense, and for some years; and this species of education is superadded to his *general* education as a scholar.

Having become acquainted with the foregoing facts, in the manner before mentioned, the Commissioners informed the Committee of the Directors, that they were prepared to receive such proposals from them, as they should be inclined to offer. We were soon after furnished with a written communication under the signature of the President of the Institution, which is annexed to this Report, and to which we would refer as constituting a part of it. The Commissioners, with a view of ascertaining how far the proposals contained in the communication, might be considered as favorable, and founded on such principles as would probably meet the expectations and acceptance of the States they respectively represented, made the following statements: Thus—

65 pupils, at \$1 75 cts. each per week,	\$5,915 00
Salaries for one year,	5,550 00
Contingencies,	800 00
	<hr/>
	12,265 00
Funds which pay in part said expense,	5,200 00
	<hr/>
	7,065 00

The above balance of \$7,065, being divided by 65, the number of Students, will leave to be paid by each pupil annually, (allowing a very small fraction,) the sum of \$108 70 cents. Again—supposing the number of pupils to be one hundred:

100 pupils at \$1 75 cts. each per week,	\$9,100 00
Salaries,	6,350 00
Contingencies,	1,200 00
	<hr/>
	16,650 00
Funds paying part of said sum, viz.	5,200 00
	<hr/>
	11,450 00

The above balance of \$11,450, being divided by the number of pupils, each would be required to pay annually the sum of \$114 50 cents.

From the facts thus disclosed, the Legislature may readily estimate the fairness of the proposals, and decide on the course most proper to be pursued in relation to the subject. On our part we have it in our power to state most explicitly, and we do

it with sincerity and cheerfulness ; that we are fully of the opinion, the Institution, under the Board of Directors, and the excellent Principal and other Instructors, has been, and now is governed with wisdom and integrity ; and an unceasing regard to the education of the pupils ; and a humane attention to the circumstances in which Providence has placed them. We have also the most perfect confidence in the statements and explanations which have been given us :—And in the assurances that every facility will be readily furnished for information to the States, when requested, in relation to the funds and accounts of the Institution. It will be remembered that the Asylum was founded by charitable and benevolent Individuals ; by whose care and attention only it was for a time fostered, until the grant before mentioned was made by Congress.

It was incorporated by the Legislature of Connecticut in 1816—and the next year commenced the business of instruction. It is a private Institution, and not under the care or visitatorial power of any other body.

Considering the mass of evidence which is before the public respecting the effects of Education upon the minds of the Deaf and Dumb ; the developement of their powers, and the blessings thus conferred upon them ; blessings precious in themselves ; and *to them* precious in a degree of which we can form no adequate conception : Considering these important and interesting facts, it cannot be necessary for us to expatiate on this subject, or present it in any other light, on this occasion, than as one demanding the *gratitude*, not merely of the Deaf and Dumb, but of all mankind ; and demanding also the best, and most judicious exertions for extending the blessings of this species of education as far as possible ; thus leading thousands of our fellow-creatures from darkness into day—from the gloom of ignorance to the light and joy of knowledge, and the countless comforts and charms of social life. And although, by the terms of the Resolve, under which we were appointed, we are not directed to report *any opinion* ; but to collect and report *facts* ; yet we trust we shall not be considered as disrespectful in expressing a *strong hope* that the Legislature will in the mode proposed, or in some other mode, adopt and pursue such measures as may be proper to insure the general bestowment of this heavenly charity upon the Deaf and Dumb in Maine.

PRENTISS MELLEN,
PELEG SPRAGUE.

JANUARY 31, 1825.

At a meeting of the Directors of the American Asylum, at Hartford, for the education and instruction of the Deaf and Dumb, held at Bennett's Hotel, on Thursday, Jan. 27, 1825—a quorum present—Hon. Nathaniel Terry in the chair :—

The committee appointed to confer with commissioners from the States of Massachusetts, New-Hampshire, Vermont, and Maine, made a report, as on file ; whereupon the following preamble and resolutions were adopted :—

WHEREAS the States of Massachusetts, New-Hampshire, Vermont, and Maine, have sent commissioners to examine into the state and condition of this Institution, as it respects its funds, and the instruction, treatment and employment, of the pupils ; and to ascertain the terms and conditions upon which the Deaf and Dumb who may be sent to the Asylum by those States will be received ; now, therefore, it is hereby

Resolved, That we will receive the Deaf and Dumb who may be sent to the Asylum by the States aforesaid respectively, or such of them as shall agree to our proposals, for the sum of one hundred and fifteen dollars per annum for each pupil, and for that sum to furnish such pupils with instruction, board, washing and lodging, and stationary for the school rooms, and to teach them mechanic trades, as is hereinafter specified ; and that the sum aforesaid shall be varied from year to year, as the state of the funds shall warrant—such sum to be fixed by the Directors at the commencement of each year, and to continue for one year ; the year to commence on the last Wednesday of May ; the money to be paid in advance semi-annually. And further

Resolved, That the Board of Directors will act in future, as they have done heretofore, upon the principle of making the charity with which they are intrusted as extensively useful as possible ; and for that purpose to expend all that they have a right by law to expend, (the product of their fund,) and to distribute it with an impartial hand, extending its benefits equally, not only to the States aforesaid, but to all other States in the Union, who may send their Deaf and Dumb to the Asylum, upon the terms and conditions contained in this resolution—also to indigent individuals ; so that as our fund increases, (as we may reasonably expect will be the case,) the sum to be received as aforesaid, for instruction, &c. will be lessened, from time to time, always calculating to expend, during the year, the income of the year, after reserving such sum as the Directors shall deem meet, for contingent and unforeseen expenses. And further

Resolved, That whereas it is considered important that the Deaf and Dumb should be instructed in some useful art or trade, whereby they may be enabled to support themselves by their labour, after having received their education, and therefore they

will be considered subject to the direction of the Institution, who are to use their discretion in this respect, unless directions shall otherwise be given by the State, parent or guardian who shall have sent them; and they will be taught such arts or trades as shall be taught at the Asylum, and such as shall be deemed suitable and proper for them respectively.

And whereas it is necessary, not only for the good of the pupils, but for the convenience of the Asylum, that every pupil should continue at least four years, that being the least time in which they can acquire, even an ordinary education :

Resolved, That it is expected, as a general rule, that no one will be placed here for a less term than four years.

It is understood that the privilege of participating in the funds, in common with other States, accepting these propositions, and of indigent individuals, is to be considered as permanent.

Passed, NATHANIEL TERREY, *President*.

STATE OF MAINE.

IN SENATE, February 17, 1825.

The Committee to whom was referred the Governor's Messages respecting the Deaf and Dumb, and also the report of the Commissioners on the same subject, ask leave to Report :

That the information communicated to the Legislature by the Governor, is substantially confirmed by the report of the Commissioners. The Directors of the American Asylum are unquestionably solicitous that the Institution should flourish, and disposed to receive into it, pupils from this State and from others.

The Committee are fully satisfied, that considering the small number of the Deaf and Dumb, the founding of an Institution for their reception in this State would not be discreet; and that the public charity which may be here bestowed for their benefit, may be more profitably employed in educating them at some institution already established; they therefore wholly approve of the decision of the Governor and Council in the exercise of the discretion entrusted to them respecting the commencement of an Asylum in Maine. The Committee have no evidence that any other similar institution affords, at present, equal advantages with those offered by the American Asylum as respects instruction in discipline, science, and the mechanic arts. The citizens of this State have cherished the liberal policy to extend, with all practicable equality the means of knowl-

edge and happiness, and the course of measures on which your Committee are now called to report, evinces the disposition to extend a due share in these means, to the indigent deaf and dumb. The Committee therefore, recommend that a suitable sum for this object be placed at the disposal of the Supreme Executive; for which purpose a Resolve is herewith submitted.

The Committee further report, that there be printed under the direction of the Secretary of State, seven hundred copies of the Report of the Commissioners, and of the Resolve above recommended; and that a copy thereof be distributed to the Selectmen of each town, and the Assessors of each plantation; also a copy to each of the members of the Legislature, and the residue as the Governor shall direct.

By order,

JOSIAH STEBBINS.

MESSAGE OF THE GOVERNOR.

To the Senate and House of Representatives :

I lay before the Legislature a communication received from the officers of a company of Artillery in the second Brigade and fourth Division, relative to the situation of the Field Ordnance attached to said company. By law it is made the duty of the Quarter Master General to provide for each company of Artillery brass field pieces, carriages and apparatus necessary for their complete equipment for the field.

As there are no brass pieces belonging to the State of suitable calibre for the use of Artillery companies, except those already distributed, the Acting Quarter Master General will be unable to take any measures upon this application, unless he shall be authorized, by an appropriation, to meet the expense. During the last three years but one Artillery Company has been raised

within the State, although applications have been made for a number more. This company, raised on the seaboard, and within a Brigade wholly destitute of Artillery, has not yet been furnished with such pieces as the law prescribes. The subject is submitted to the two branches of the Legislature for their consideration.

To the Senate and House of Representatives :

I lay before the Legislature a copy of the account of Samuel F. Hussey, one of the agents of the Penobscot tribe of Indians, for articles furnished them for and on account of this State, in fulfilment of the existing treaty with said tribe.

This account has been examined and allowed by the Council, agreeably to the provisions of the law under which said agent was appointed, but has not been paid from the Treasury, as the last Legislature omitted to make the appropriation necessary to meet this expenditure. Supposing the omission to have been accidental, and considering it to be my duty to cause all the terms and conditions of said treaty to be carried into full effect, I directed the agent to procure, on my own responsibility, such sum of money as might be necessary to purchase all the articles stipulated by the treaty to be delivered to said Indians in the month of October annually, limiting the amount to twelve hundred dollars, that being the sum appropriated for the like purpose the preceding year. MESSAGE OF THE GOVERNOR.

To the Senate and House of Representatives :

I transmit a copy of a communication received from the Inspector General of Hops. His statement is corroborated by the official returns. On the renewal of the commission, in September last, the appointment was declined by the present Inspector on account of the amount of duties required by law to be paid on the commission. He was informed that the payment of the duty was indispensable during the existence of the law; but that, as the propriety of requiring a duty on an office of so little

emolument was questionable, the subject would be submitted to the consideration of the Legislature. Under this assurance the appointment was accepted.

MESSAGE OF THE GOVERNOR.

To the Senate and House of Representatives :

Having this day received from the Inspectors of the State Prison their final report for the past year, I have directed a copy thereof to be laid before the two branches of the Legislature for their information.

ALBION K. PARRIS.

COUNCIL CHAMBER, }
JANUARY 12, 1825. }

HOUSE OF REPRESENTATIVES, JAN. 12, 1825.

Read, and referred to the Committee on the subject of the State Prison, with authority to print the whole or such part of

the accompanying documents, as may be interesting to the Legislature.

Sent up for concurrence.

JOHN RUGGLES, *Speaker.*

IN SENATE, January 13, 1825.

Read and concurred.

JONAS WHEELER, *President.*

PURSUANT to the foregoing authority, the Committee sub-join several views of the affairs of the State Prison, from the documents aforementioned. It will be observed, that no balance appears of the ordinary expenses of the establishment, and the avails of the labor of the convicts. This deficiency is the result of necessity. Daniel Rose, Esq. acting in the several offices of "Superintendent" and "Warden," of the Prison, found it impracticable to keep separate the expenses incurred in the two capacities. Materials for building were worked into the prison house, the work-shop in the yard, (in which is included an apartment for religious worship,) the elevated walk on the outside of the yard fence, necessary for the guard, and the fence around the land belonging to the prison. Parts of the lumber which were not suitable for one purpose were applied to another. All parts of the work were carried on at the same time, and by the same workmen. Nails, &c. purchased by the quantity, could not, without needless trouble and loss, be kept separate. The bad lime rock, which otherwise must have been removed from the yard at great expense, was erected into the walls of the work-shops, and the convicts were employed in the erection. In future reports, after the work shall be substantially completed, the expense and income of the prison may be expected to appear with all desirable distinctness. On the whole, the state of the prison is, in the opinion of the committee, as favorable as can have been reasonably expected. The value of the labor of the convicts is, by the Warden and Inspectors, estimated at above 70 cents a day. The accounts of the Warden are by the Inspectors duly certified to have been by them examined and approved.

STATE OF MAINE.

IN SENATE, February 24, 1825.

The Committee on the affairs of the State Prison, ask leave to REPORT:—That considering the short time which the institution has had to test its operation and character, the difficulties which it has encountered, and the doubts against which, from the novelty of its principles, it has struggled, its success has equalled just expectation. The officers appear to have been capable and faithful; the appropriations to have been expended with economy and discretion, and the affairs of the prison generally to be prosperous. An abstract of the situation of the institution having been printed and before the Legislature, the Committee will only add that an appropriation for its support seems prudent and expedient; and an allowance to the Warden above his salary, for his first half year, appears to be no more than just, as an adequate compensation for his important and responsible duties during that period. For these purposes a Resolve is herewith submitted. JOSIAH STEBBINS, *Chairman.*

CHAPTER LVIII.

Resolve making an appropriation for the State Prison.

Resolved, That a sum not exceeding one thousand dollars be appropriated for the support of the State Prison, to be paid to the Warden of the Prison, from time to time, as shall, to the Governor and Council, appear necessary.

Resolved, That there be paid to Daniel Rose, Warden of the Prison, in consideration of the labors and duties, which devolved on him, during the past half year, the sum of one hundred dollars, in addition to his annual salary.

children and heirs at law, of the said Westbrook Knight, have in and to a certain tract of land, situated in said Lincolnville, with the buildings thereon; being the same, which was, by Samuel Thomas, and Olive Thomas, his wife, of Lincolnville, conveyed to the said Westbrook Knight, by deed, dated on the twenty-fifth day of March, in the year of our Lord one thousand eight hundred and fifteen, and bounded and described, as in said deed, which is recorded in the Registry of Deeds, in the County of Hancock, in Book No. 38, page 45. To have and to hold the aforesaid premises, to him the said John Norton, his heirs and assigns forever, against all persons claiming under the said Westbrook; and such deed made and executed under the authority of this Resolve, shall be good and effectual in law, to convey to the said John Norton, all the right, title, claim and interest, of the children and heirs at law of the said Westbrook Knight, in and to the premises aforesaid, in as full and ample a manner, as if the said Westbrook Knight, had, in his life time, made and executed a release of said land and premises to the said John Norton.

MESSAGE OF THE GOVERNOR.

To the Senate and House of Representatives :

I have this morning received from the Executive of Massachusetts a communication covering sundry Resolves passed by the Legislature of that State, relative to the depredations which have been committed by British subjects upon the timber on land own-

ed jointly by the two States, which I lay before the two branches of the Legislature for their information. It is peculiarly gratifying that the measures adopted by the Legislature of this State, have been so cordially concurred in by the Legislature of Massachusetts.

ALBION K. PARRIS
