[Approved March 5, 1858.]

**Chapter 137.**

Resolve in relation to the settlement of the public lands.

*Whereas*, Representations have been made to the present legislature by Henry Silberman, a native of Germany, that there is a large and steady emigration yearly from the nothern part of Germany to the United States, and that this emigration is almost entirely directed to the western states, through the ports of Boston, New York and Philadelphia, and that by judicious measures, some portion of the emigration might be directed to Maine; and *whereas*, it is manifestly for the best interest of the state to have its vacant lands made productive by converting the same into farms, and that some effort should be made to invite emigration into the fertile valley of the Aroostook, therefore

*Resolved*, That under the direction of the governor and council, the land agent is hereby authorized to enter into a contract with any German or Germans who may emigrate from Germany with the design of making a settlement upon the public settling lands, for the conveyance of a tract of such land, not exceeding one township, upon the following terms and conditions:

Public lands, in relation to settlement of.

The contract shall provide for the settlement of at least one hundred families upon the whole township, fifty families upon a half township, or twenty-five families upon a quarter township, as the case may be, within the term of five years after making said contract; and the contract shall further provide that the following settling duties shall be performed by the party or parties contracting, viz: the said party or parties so contracting shall within two years from the

—terms of settlement.
