'Sec. 34. Operators of motor vehicles from states not requiring licenses must be licensed in this state. The provisions of this act relative to the registration of motor vehicles, tractors and trailers, and the granting of operators' licenses shall not apply to a motor vehicle, tractor or trailer owned by a non-resident, other than a foreign corporation doing business in this state, or to a non-resident operator other than the operator of any such vehicle belonging to a foreign corporation doing business in this state, provided that the owner of such vehicle and its operator have complied with the provisions of law of the state or country of his residence relative to the registration of such vehicles, and the granting of operators' licenses. But this exemption regarding operators' licenses shall not apply to any operator resident in any other state or country whose laws do not require such operators' licenses. The provisions of this section shall, however, be operative as to an owner and operator of such vehicle only to the extent that under the laws of the state or country of his residence, like exemptions and privileges are granted to owners and operators of like vehicles registered under the laws of this state; and the secretary of state shall determine what states and countries grant similar privileges and the extent of the privileges so granted; and his determination shall be final. Nothing in this act shall be construed to permit a non-resident vehicle having a weight in excess of or equipped contrary to that allowed a similar resident vehicle, to be operated on the ways of this state.'
