Chapter 364

AN ACT Relating to Educational Aid and Reorganization of School Administrative Units.

Be it enacted by the People of the State of Maine, as follows:

Sec. 1. R. S., c. 41, §§ 237-A - 237-H, additional. Chapter 41 of the Revised Statutes is hereby amended by adding thereto 8 new sections, to be numbered 237-A to 237-H, inclusive, to read as follows:

'Sec. 237-A. Minimum salaries for teachers. Each administrative unit operating public schools within the State shall employ only certified teachers and after July 1, 1958, shall pay such teachers, except substitute teachers as defined by the State Commissioner of Education, the minimum salaries as follows:

Years of Teaching Experience	Certified Teachers	Teachers with 3 years of Professional Study beyond High School	Teachers with 4 years of Professional Study beyond High School and with a Bachelor's Degree	Teachers with an earned Master's Degree
0	\$2,200	\$2,600	\$3,000	\$3,200
1	2,300	2,700	3,100	3,300
2	2,400	2,800	3,200	3,400
3	2,500	2,900	3,300	3,500
4	2,600	3,000	3,400	3,600
5	2,700	3,100	3,500	3,700
6	2,800	3,200	3,600	3,800
7	2,900	3,300	3,700	3,900
8	3,000	3,400	3,800	4,000
9	3,100	3,500	3,900	4,100
10	3,200	3,600	4,000	4,200

Notwithstanding the provisions of this paragraph no town shall be required to increase the salary of any teacher more than \$300 in any one school year. Any administrative unit which fails to comply with any of these conditions shall have deducted from its apportionment a sum equal to that by which it is delinquent.

After providing an opportunity for a hearing, the State Board of Education, on recommendation of the Commissioner, may adjust the state subsidy to an administrative unit when, in the opinion of the Board, the expenditures for education in such unit shows evidence of manipulation to gain an unfair advantage or are adjudged excessive.

Sec. 237-B. Reimbursement for professional credits. Whenever any certified teacher completes, within any 2-year period, 6 credit hours of additional professional work approved by the Commissioner and receives supplementary financial assistance in an amount not less than \$50 from an administrative unit, said unit shall receive reimbursement of \$50 from the State for such expenditure at the next distribution of state funds. The renewal of each teaching certificate shall be conditional on the completion of at least 6 semester hours of professional study within each period of 5 years, excepting that

I. Teachers qualifying for standard grade certificates, completing 18 semester hours of post-baccalaureate study, and teaching successfully for not less than 4 years, and

II. Certified teachers who have taught successfully for not less than 25 years may be declared eligible to a 10-year term certificate, renewal of which being conditional upon the presentation of evidence of professional improvement acceptable to the Commissioner.

If the employment of teachers under permits or other special licenses is authorized by the State Board of Education, the said Board shall have the authority to prescribe minimum salaries and other regulations for this class of teachers.

Sec. 237-C. The foundation program, defined. To help equalize educational opportunity and guarantee a minimum program of education for all children throughout the State there is hereby established a foundation program or level of education, expressed in terms of a minimum dollar cost per pupil, in which the State will participate financially on a percentage basis rendering greater financial assistance to the less able administrative units.

Criteria for the foundation program shall be:

I. The scope of the school program shall include pre-primary or kindergarten education for 5 year old children and all grades through grade 12;

II. The cost of the foundation program shall include expenditures for teachers' salaries and board, conveyance of pupils, fuel, janitors' services, tuition, board of pupils, textbooks, reference books, school supplies for desk or laboratory use, public utility services, flags, replacement of instructional equipment, fire insurance, compensation for superintendent and his assistants, school committee, community school committee or school directors, office, attendance officers and medical inspection.

III. School administrative units shall:

A. Pay teachers in accordance with the minimum salary law;

B. Employ at least one teacher for each 30 elementary school pupils except in the pre-primary or kindergarten where the ratio shall not exceed one to 60 and at least one teacher for each 25 high school pupils;

C. Expend at least 35% of the cost of instruction on nonteaching services.

Sec. 237-D. Foundation program allowance. The foundation program allowance for each administrative unit, except community school districts which do not offer educational programs for both grades and high school pupils, shall be determined as follows:

The average of the 2 preceding years' average daily membership of the pupils attending school in the unit shall be multiplied by the applicable dollar allowance in Table I below. To this amount shall be added the average of the unit's 2 preceding years' expenditure for tuition, pupil transportation and board. The total of these items will be the total foundation program. From this total foundation program shall be subtracted the average of the 2 preceding years' tuition collections and other school maintenance incidental receipts. The net cost thus obtained represents the net foundation program allowance on which state subsidy shall be computed biennially in accordance with section 237-E and Table II.

Table I

Size of School Administrative Unit Based on Average Daily Membership	Foundation Program Allowances Per Pupil	
	Elementary Schools	Secondary Schools
1-25	\$4,000 (1)	\$11,000 (2)
26-50	\$4,000 / 80 per pupil (1)	\$12,000 (2)
51-100	\$164 per pupil (1)	300 p/pupil (2)

301-500	148 " "	260 "
501-800	144 " "	250 "
801 and over	140 " "	245 "

- (1) Compute at \$142 p/pupil in ADM if within 10 miles of neighboring school by nearest suitable highway.
- (2) Compute at \$260 p/pupil in ADM if within 15 miles of neighboring school by nearest suitable highway for payments in December of 1957 and 1958. Thereafter, compute those high schools that have been classified as unnecessary by the school district commission as follows: If average daily membership is 60 or less, compute at \$225. If average daily membership is between 61 and 300, compute at \$260.

It is the intent of the Legislature that Table I of this section should be revised each biennium to reflect changes in the educational expenditures of towns. On or before October 1st of each year prior to the convening of the Legislature, it shall be the duty of the Commissioner of Education to make recommendations to the Governor for such revision which may be used as the basis for budget needs and recommendation for state school subsidies for appropriation by the subsequent session of the Legislature.

Sec. 237-E. State support of the foundation program. On the basis of information available in the office of the Commissioner of Education on September 1st for the 2 years next preceding the biennial convening of the Legislature, as provided in returns of educational statistics required by him, the Commissioner shall apportion subsidies to the school administrative units of the State for each of the next 2 years according to the following plan:

The several administrative units (cities, towns, plantations and school administrative districts) shall be divided into 21 classifications according to their valuations per resident school child being educated at public expense. The valuation shall be as determined by the Board of Equalization in the statement filed by it, as provided in section 67 of chapter 16 on December 1st, 1956, and the number of children shall be the average of the last 2 enrollment reports

of resident pupils being educated at public expense on April 1st annually, except that for the years 1957-58 allocations shall be based on the Board of Equalization statement filed on December 1st, 1956.

For each classification the subsidy allocation thereafter shall be the same for each of the 2 years of the biennium and shall be the applicable percentage of the average net foundation program allowance for the preceding 2 years, as defined in section 237-D obtained from Table II below.

Table II

Class	State Valuation per Resident pupil	Percentage of State support of Foundation Program
1	\$ 3,000 and under	66%
2	3,001-3,500	64
3	3,501-4,000	62
4	4,001-4,500	60
5	4,501-5,000	58
6	5,001-5,500	55
7	5,501-6,000	52
8	6,001-6,500	49
9	6,501-7,000	46
10	7,001-7,500	44
11	7,501-8,000	41
12	8,001-8,500	38
13	8,501-9,000	36
14	9,001-9,500	34
15	9,501-10,000	32
16	10,001-10,500	30
17	10,501-11,000	28
18	11,001-11,500	26
19	11,501-12,000	24
20	12,001-12,500	21
21	12,501 and over	18

Whenever any administrative unit's average net operating cost in any biennium is less than the amount provided for in the total foundation program, its state subsidy for the next 2 years will be decreased accordingly, that is, the percentage that the net operating cost is of the net foundation program allowance will be applied to that unit's preliminary allotment to determine the final subsidy.

As larger and more efficient administrative units are established throughout the State the existing inequities in state subsidy will level off. As this condition progresses it is the intent of the Legislature to revise Table II toward the ultimate end that all administrative units will be required to exert a single uniform tax effort on state valuation to support the foundation program.

Any administrative unit, approved by the School District Commission as a necessary and efficient administrative unit, in which the average net operating cost in any biennium exceeds the amount of the average net foundation program allowance shall be entitled to an additional subsidy allocation on that part of its average net operating cost which exceeds its net foundation program allowance, said subsidy to be 10% of the percentage to which said administrative unit is entitled to receive in Table II.

In figuring subsidy to community school districts, the following shall apply.

Those community school districts offering a school program which includes sub-primary through the 12th grade shall be subsidized as a single administrative unit, and payment made directly to the community school district rather than to the participating towns. In those community school districts where only part of this program is offered, the district cannot be considered as an administrative unit for subsidy purposes but each participating town's share of the operating cost of such district shall be treated as a tuition expenditure in the subsidy tabulation for that town and its subsidy figured accordingly.

The allocation made to each such town because of its share in the allowable operating cost of the community school district shall be paid to the community school district and credited to the town's share of the cost of operating the school with the remainder of each participating town's subsidy being paid directly to the town.

Sec. 237-F. Subsidy payments in December, 1957 and December, 1958. In those administrative units where state subsidy for 1957 and 1958 under the general purpose educational aid law would have been greater than the subsidy calculated under the provisions of sections 237-D and 237-E, the following shall apply: For payment in December, 1957 the larger of the 2 amounts will be paid. For payment in December, 1958 the payment will be the subsidy due under sections 237-D and 237-E plus $\frac{1}{2}$ the difference between this amount and the amount that would have been allowed under the general purpose educational aid law.

Sec. 237-G. Supplemental state aid for reorganized districts. When administrative units are reorganized by the formation of "School Administrative Districts" as is provided for in sections 237-A to 237-H, inclusive, the state subsidy paid annually to each such district, as determined in section 237-E, shall be supplemented by an additional 10% of the percent to which it is entitled through the computation in section 237-E.

Sec. 237-H. State aid for school construction in reorganized districts. To provide effective incentive for the establishment of appropriate larger school administrative districts, the Commissioner shall allocate state financial assistance

to school administrative districts on school construction approved subsequent to the formation of such districts in accordance with the following: On the basis of information available in the office of the Commissioner on November 1st of each year, he shall apportion, in December of that year, to school administrative districts the same percentage of said district's expenditures for capital purposes, including cash payments, interest and principal payments, that the district would be entitled to receive that year on operational cost under the provisions of section 237-E. Said apportionment shall apply similarly to payments made on contracts awarded subsequent to the effective date of this act in single municipality administrative units where the April 1st enrollment of resident pupils in Grades 9 through 12 for that year is over 700 pupils and in smaller administrative units when in the judgment of the Commission the formation of a school administrative district by consolidation is not geographically or educationally practical.'

Sec. I-A. R. S., c. 41, § 237, repealed. Section 237 of chapter 41 of the Revised Statutes, as amended by chapters 70 and 449 of the public laws of 1955, is hereby repealed.

Sec. I-B. R. S., c. 41, §§ III-A - III-P, additional. Chapter 41 of the Revised Statutes is hereby amended by adding thereto 16 new sections, to be numbered III-A to III-P, inclusive, to read as follows:

'School District Commission.

Sec. III-A. Declaration of policy. It is hereby declared to be the policy of the State to encourage the development of school administrative units of sufficient size to provide a more equalized educational opportunity for pupils, to establish satisfactory school programs, and achieve a greater uniformity of school tax rates among the school administrative districts and a more effective use of the public funds expended for the support of public schools.

Sec. III-B. School District Commission. For the purpose of promoting, developing and adjusting a state plan for the creation of efficient school administrative districts throughout the State and for the purpose of approving applications for the organization of school administrative districts, there is hereby created a School District Commission consisting of 5 members, one of whom shall be the Commissioner of Education or his representative, who shall serve as secretary to the Commission, to be appointed by the Governor with the advice and consent of the Council to serve for a period of 5 years. At the expiration of their term of office their duties and responsibilities are to be assumed by the State Department of Education. Vacancies in the membership of this Commission shall be filled by the Governor with the advice and consent of the Council. Members of the Commission shall be reimbursed for their traveling expenses necessarily incurred and \$10 per day for subsistence while in the performance of their official duties.

Sec. III-C. Organization. The School District Commission shall meet at the call of its secretary and organize by electing from its membership a Chairman and vice-chairman and a treasurer. The Commission shall adopt such by-laws, rules and regulations for the calling and holding of meetings and the administration of its affairs as it deems appropriate and necessary to effectuate the purposes of sections III-A to III-P, inclusive. A majority of the membership of the Commission shall constitute a quorum for the purpose of transacting business.

Sec. III-D. Powers and duties. The State School District Commission is hereby empowered and authorized and it shall be their duty:

I. To appoint and employ in accordance with the Personnel Law such personnel as may be deemed necessary to carry out the duties imposed upon it by sections III-A to III-P, inclusive, to fix the duties of such employees and to utilize staff of the State Department of Education and make funds available therefor;

II. To be responsible for a thorough study of school conditions and needs in the State, to determine plans for the establishment of appropriate school administrative districts in all organized territory of the State and to report its actions and recommendations to the 99th session of the Legislature. Said study and planning to be directed by the Commission but to include all possible participation and assistance by citizens and organizations at the local level;

III. To evaluate the impact of consolidation on valuation per pupil in the larger district as compared to the individual towns comprising the district and make definite recommendations with respect to an eventual uniform minimum tax rate toward the support of a foundation program of education when these larger districts have been appropriately established throughout the State;

IV. To survey, as completely as possible, school building needs and costs in the respective proposed districts which are required to effectively accomplish the organization of the districts;

V. To identify specifically the unnecessary small schools, for which the full foundation program allowance should not be provided;

VI. To further expedite this reorganization by receiving, filing, examining and approving or disapproving applications for the establishment of school administrative districts. When so approved, the Commission shall order the proposal submitted to referendum in the municipalities involved, within a period of 60 days. On receipt of satisfactory evidence of an affirmative action by a majority vote in each of the municipalities involved, the Commission is further empowered to assign to the newly created district a name and number, and make proper reports of the districts organization to the Secretary of State who shall issue to the applicant a certificate of organization. On receipt of such certificate the newly formed school administrative district is authorized to and is responsible for the operation of all public schools within the district, beginning with the opening of school for the next school year.

Whenever a majority vote in each of the municipalities involved is not obtained but a majority of the municipalities involved has approved the establishment of a school administrative district, the Commission is empowered to authorize the creation of the district to be composed of those municipalities in which a majority vote has been obtained.

Sec. III-E. Criteria for school administrative districts. The school administrative district, to be effective, must be of sufficient size and ability to offer an efficient educational program in grades one through 12, including a kindergarten or pre-primary year. To accomplish this purpose, it must be able to maintain a minimum average daily membership of approximately 300 pupils educated at public expense in grades 9 through 12 in one secondary school attendance unit and such elementary attendance units as are needed. If this minimum size district cannot be attained without transporting high school pupils an unreasonable dis-

tance, generally considered to be over 20 miles, or if other local conditions justify a decision to the effect that a smaller district would be for the best educational interest of the pupils involved, smaller districts may be approved by the Commission.

Organization of School Administrative Districts.

Sec. III-F. School administrative districts. The inhabitants of and the territory within 2 or more municipalities may form a school administrative district which shall be a body politic and corporate, if previously approved by the School District Commission, by proceeding as follows: The School Committees and selectmen of the interested municipalities may meet for the purpose of determining a fair and equitable number of school directors to be elected by and to represent each participating municipality. When a decision on this representation can be reached by a $2/3$ majority vote of those present, the municipal officers in each of the several municipalities may call a meeting of the inhabitants of their respective municipalities in the manner provided by law for the calling of town meetings, and such meetings shall vote to favor or oppose similar articles in the following form:

Article : To see if the municipality will vote to join with the municipalities of (naming them) to form a school administrative district.

Article : To see if the municipality will vote to approve the allocation of representation among the municipalities on the Board of School Directors as recommended by the school committees and boards of selectmen and listed as follows.

Article : To see if the municipality will vote to authorize said school administrative district, from time to time, to borrow money to pay current operating expenses of its schools in anticipation of the receipt of assessments from the participating municipalities, and for capital outlay purposes by issuing its bonds and notes therefor in an amount not to exceed $7\frac{1}{2}\%$ of the equalized state valuation of the municipalities or parts thereof comprising the district but any such borrowing of funds for capital outlay purposes of the district shall first be approved by a majority of those qualified voters of the district voting at a regular or special election called by the directors and held under the provisions of Australian ballot law.

Article : To see if the municipality will vote to authorize the transfer of the title of all school property now in use in the municipality to the new school administrative district.

Where coterminous school districts exist or there is indebtedness outstanding for school construction in any of the municipalities concerned, the following additional article must be acted upon similarly:

Article : To see if the municipality will vote to authorize the district to assume full responsibility for amortizing the following listed indebtedness now outstanding in the municipalities and districts comprising the school administrative district under consideration. (The list must include the name of the obligated municipality or district, type of obligation, amount unpaid and the payment schedule.)

The clerk in each of the several municipalities shall file a return of such votes with the School District Commission. If a majority of those voting in each of

the municipalities shall favor each of the above articles, the inhabitants of and the territory within said municipalities shall thereupon become a school administrative district, which shall, subject to the provisions hereof, bear the name and number assigned it by the School District Commission and shall have authority to acquire and hold property and to borrow money not in excess of the amount so determined upon.

Existing community school districts may become school administrative districts on approval of the School District Commission and may suspend operation as a community school district if each of the participating municipalities acts affirmatively on an article similar in form to the following, prior to accepting the other articles required in this section.

Article : To see if the municipality will vote to authorize the Community School District, of which said municipality is a part, to suspend operation as a community school district and organize and operate as a school administrative district in accordance with action on the following articles.

When affirmative action is taken in accordance with the preceding article in each of the participating municipalities and the newly proposed school administrative district is approved by the School District Commission, said district shall automatically become eligible to the benefits of sections 237-G and 237-H and become responsible for assessing in all the participating municipalities in the new school administrative district, collecting and paying over to the trustees of the Community School District each year the funds necessary to amortize all outstanding capital outlay indebtedness existing at the time when the operation of the Community School District was suspended.

Sec. III-G. Organization. When the inhabitants of 2 or more municipalities or parts thereof have voted to form a school administrative district, as provided in section III-F, the municipal officers of each of the municipalities in the proposed district shall make a return to the School District Commission setting forth the fact of the organization of the district and listing the vote from their respective municipalities on each of the articles. If found in order, and approvable by the Commission, it shall be approved and assigned a name and number and forwarded to the Secretary of State for recording. If the Secretary of State finds that the school administrative district has been organized according to law, he shall issue to it a certificate of organization and such certificate shall be conclusive evidence of the lawful organization of the school administrative district. Whenever the membership of a school administrative district is changed by the addition or subtraction of new territory, a return to that effect shall promptly be so filed by the school directors. A copy approved by the School District Commission and certified by the Secretary of State, of a return so filed shall be conclusive evidence of the change in the school administrative district.

Only those municipalities the inhabitants of which vote to join such school administrative district shall be bound by the terms of sections III-A to III-P, inclusive.

When the territory of a school district or community school district falls within a school administrative district which has been issued its certificate of organization, the trustees of such district or community school district shall upon request of the school directors of the said school administrative district convey the title to all school property and buildings then owned by said district or community school district to said school administrative district notwithstanding any other provision in the charter of said school district or community school district.

Sec. III-H. School directors. All the affairs of said district shall be managed by a Board of School Directors which shall consist of not less than 5 nor more than 12 members, the exact number to be determined by the municipal officers as provided for in section III-F. Representation on the Board of School Directors shall be in accordance with the vote in the second Article of section III-F if approved by each participating municipality.

If at any time after a school administrative district has been formed, conditions appear to warrant a change in the number of school directors, petitions may be filed with the School District Commission or State Department of Education requesting such changes and the Commission or Department is authorized to make such changes when in their judgment the petitions represent the wishes of a majority of the voters and the proposed change will improve the conduct of the affairs of the administrative district.

Sec. III-I. Election of school directors. When a school administrative district has been formed, elections shall be called within 60 days by the selectmen or city government in the several municipalities for the purpose of selecting the approved number of school directors from each municipality by the legal voters of that municipality. The term of office of these school directors shall be decided by lot, 1/3 for one year, 1/3 for 2 years and the remaining third for 3 years, at the first meeting of the school directors of the district. Subsequent elections shall be called and held during the month of March or when a vacancy occurs, by direction of the selectmen or city government, when so requested in writing by the Board of School Directors. The provisions of section 46 shall also apply to school directors when not in conflict with the provisions of this section.

The school directors shall receive as compensation for the services \$5 for each Board meeting that each attends. The superintendent of schools who shall serve as secretary and treasurer shall give a bond to the district in such sum and with such sureties as the directors may determine, which bond shall be deposited with the chairman. The expense of such bond shall be paid by the district. The treasurer's bond premium and fees paid members for attendance at meetings and all expenses of the district shall be paid from funds of the district by the treasurer on vouchers presented and certified by the superintendent of schools and approved by a majority of the members of the Board of School Directors or a finance committee of that Board duly appointed or elected annually by that Board.

Sec. III-J. Power to borrow money. To procure funds for authorized purposes of the district, the school directors of said district are authorized to borrow funds to pay current operating expenses of the district but said loans must be repaid within one year. To procure funds for capital outlay purposes, which include acquiring land, constructing, renovating, remodeling and equipping school buildings and related recreational and athletic facilities, the school directors of said district are authorized to issue bonds and notes of the district, not to exceed in the aggregate at any one time outstanding, the limit of indebtedness of $7\frac{1}{2}\%$ of the total of the last preceding state valuation of all the participating towns. The issuing of bonds or notes for capital outlay purposes shall first be approved by a majority of those qualified voters of the district voting at an election called by the school directors and held under the provisions of sections 49 to 63 of chapter 91. Contracts, leases or agreements with the Maine School Building Authority shall not be debts or liabilities within the provisions of this section. Each bond or note shall have inscribed upon its face the name and number of the school administrative district and shall be dated at such time or times, shall be in such denomination, shall bear such rate of interest, per annum, payable semiannually, be in such form, subject to the provisions

of sections III-A to III-P, inclusive, and be sold in such manner, at public or private sale as the school directors shall determine. Each issue of said bonds shall mature in substantially equal annual installments, so that the first installment shall be payable not later than 2 years after the date of issue and the last installment not later than 25 years from the date thereof. If the proceeds of an issue of bonds are used in whole or in part to fund temporary notes of the district or renewals thereof, the period during which such issue of bonds shall be outstanding, plus the period of the loan represented by such temporary notes or renewals thereof, shall not exceed 25 years. All notes or bonds issued by said school directors on behalf of an administrative district shall be signed by the treasurer and countersigned by the chairman of said Board of School Directors, and if coupons be issued, each coupon shall be attested by a facsimile signature of the treasurer printed thereon. Notes issued by the administrative district shall mature not later than one year from their date but may be renewed from time to time, provided the period of the original note plus that of renewals thereof shall not exceed 2 years. Said notes and bonds and said contracts, leases and agreements with the Maine School Building Authority shall be legal obligations of said district, which is declared to be a quasi-municipal corporation within the meaning of section 136 of chapter 53, and all the provisions of said section shall be applicable thereto.

Sec. III-K. How financed. The directors of each school administrative district shall within 90 days after authorization by vote of the participating municipalities as provided in section III-F and thereafter annually before April 1st of each year determine the sum required each year to meet the bonds falling due and what further sum is necessary to meet the interest on said bonds or other obligations, and all other expenses necessary for the operation of the administrative district, including temporary loans and the rentals and other charges provided in any contract, lease or agreement with the Maine School Building Authority. Also before April 1st of each year and after their budget has been prepared, the school directors shall hold a public hearing, suitable notice of which shall have been posted in each school district ward for a minimum of 7 days. At this hearing the budget shall be thoroughly explained and the voters of the district shall be given an opportunity to be heard. Except that in those school administrative districts composed of towns and no cities, such budget must be approved by the voters of the district at a district meeting to be held before April 1st of each year and to be called by the directors of the district and held in the same manner as town meetings. Notice of such district meeting shall be posted in each town in the same manner as town warrants. The secretary of the district shall be clerk of the meeting.
