Any unexpended balances at the end of each of the fiscal years 1961-1962 and 1962-1963 shall not lapse but shall remain a continuing carrying account for the purposes of this act.

Effective March 3, 1962

Chapter 250

AN ACT Making Miscellaneous Appropriations for the Expenditures of State Government and for Other Purposes for the Fiscal Years Ending June 30, 1962 and June 30, 1963.

Be it enacted by the People of the State of Maine, as follows:

Sec. 1. Appropriations for necessary expenditures of government. In order to provide for the necessary expenditures of government and for other purposes for the next two fiscal years — from July 1, 1961 to June 30, 1962 and from July 1, 1962 to June 30, 1963 — the following sums or as much thereof as shall severally be found necessary, as designated in the following tabulations, are appropriated out of any moneys in the Unappropriated Surplus of the General Fund not otherwise appropriated. Upon receipt of allotments duly approved by the Governor and Council based upon work programs submitted to the State Budget Officer, the State Controller shall authorize expenditures of these appropriations and revenues accruing thereto, together with expenditures for other purposes necessary to the conduct of State Government on the basis of such allotments and not otherwise.

It is the intent of the Legislature that allotments for personal services, capital expenditures and amounts for all other departmental expenses shall not exceed the amounts shown in the budget document or as they may be revised by the Committee on Appropriations and Financial Affairs unless approved by the State Budget Officer and the Governor and Council.

It is further the intent of the Legislature that the figures in parentheses shown just before each dollar amount provided for Personal Services in this Act, or as adjusted by other Legislative action, shall represent the total number of authorized permanent positions in such account. The appropriations made for Personal Services are made with the proviso that the total number of permanent positions in any account shall not be increased during either year of the biennium over the total numbers shown in parentheses and used by the Legislature in computing the

total dollars to be made available for Personal Services. To provide some degree of flexibility, each department, institution or agency may apply to the Personnel Department for an exchange between job classifications, and such action may be approved if by so doing the total amount determined to be available for Personal Services, in such account, for any one year is not exceeded.

It is further the intent of the Legislature that no state agency shall establish permanent new programs or permanently expended existing programs, which are beyond the scope of the programs of the agency already established and recognized by the Legislature, until such program and the availability of such money shall be submitted by each agency to the Department of Finance and Administration — Budget Office for evaluation and recommendation to the Legislature, and until funds are made available therefor by the Legislature.

It is further provided that the Controller is authorized to close his books as soon as practicable after the close of the fiscal years ending June 30, 1962 and June 30, 1963. Any bills presented after those dates may be paid from appropriations for the ensuing year on recommendation of the Controller if within the amounts of approved allotments.

Whenever it appears to the Commissioner of Finance and Administration that the anticipated income of the State will not be sufficient to meet the expenditures authorized by the Legislature, he shall so report to the Governor and Council and they may curtail allotments so that expenditures will not exceed the anticipated income.

At the end of each fiscal year of the biennium, all unencumbered appropriation balances representing state moneys, except those that carry forward as provided by law, shall be lapsed to Unappropriated Surplus as provided by the Revised Statutes, Chapter 15-A, Section 20. At the end of each fiscal year of the biennium, all encumbered appropriation balances shall be carried forward to the next fiscal year, but in no event shall encumbered appropriation balances be carried more than once.
