Chapter 161

AN ACT to Appropriate Moneys for Capital Improvements, Construction, Repairs, Equipment, Supplies and Furnishings for the Fiscal Years Ending June 30, 1966 and June 30, 1967.

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment; and

Whereas, facilities of the various departments in rendering necessary services established by law are badly in need of expansion, repair, construction and reconstruction; and

Whereas, in order to accomplish the greatest possible improvement in these facilities for the total needs of the people of the State of Maine, it is vitally necessary that these expansions, repairs, constructions and reconstructions be commenced as soon as possible this year; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine, as follows:

Appropriations for necessary expenditures of State Government. In order to provide for the necessary expenditures of State Government for the next 2 fiscal years—from July 1, 1965 to June 30, 1966 and from July 1, 1966 to June 30, 1967—the following sums or as much thereof as shall be found necessary, as designated in the following tabulations in Sections A, B, C and D, are hereby appropriated for expansion, construction, repairs, equipment, supplies and furnishings out of any moneys in the General Fund Unappropriated Surplus not otherwise appropriated. Upon receipt of allotments duly approved by the Governor and Council based upon work programs submitted to the State Budget Officer, the State Controller shall authorize expenditures of these appropriations and revenues accruing thereto, on the basis of such allotments and not otherwise.

Any unencumbered balances remaining in Section A at June 30, 1966 shall lapse. Any balances remaining in Sections B and C at June 30, 1966 shall not lapse but shall carry forward into the 1966-67 fiscal year to be expended for the same purposes. Any unencumbered balances in Sections B and C at June 30, 1967 shall lapse unless sufficient evidence in the form of encumbrances is filed with the State Controller prior to June 30, 1967 showing that the project is in process, in which case all moneys appropriated to the project shall carry forward to be expended for the same purpose until such project is completed, unless otherwise directed by the Legislature.
